THE BLAIRMORE ENTERPRISE THURSDAY, JULY 2, 1925.

\$2.00 PER ANNUM

## EDMONTON EXHIBITION AND STAMPEDE

That the stamper to be held in connection with the Edmonton Exhibition this year will be the most successful in the history of Alberta, is emphasized by the fact that the best riders in Alberta, Saskatchewan and Manitoba have already sent in their entries for the contest. Riders along the "Straw-berry Red" Wall open the chutes on July 18th, the best bucking horses in the association have recognized the fact and have purchased outright some of the most notorious outlaws in the horse world. The first purchase was that of "Midnight," the winner of the championship at last year's Calgary Stampede, and other purchases made "Tumbleweed," runner-up at Calgary last year, and "Bassona Boy," the horse that won at Edmonton and took third place at Calgary.

As well as these three champion horses, forty other winners at local stampedes have been secured by Manitoba have already sent in their entries for the contest. Riders along the "Straw-berry Red" Wall open the chutes on July 18th, the best bucking horses in the association have recognized the fact and have purchased outright some of the most notorious outlaws in the horse world. The first purchase was that of "Midnight," the winner of the championship at last year's Calgary Stampede, and other purchases made "Tumbleweed," runner-up at Calgary last year, and "Bassona Boy," the horse that won at Edmonton and took third place at Calgary.

## BLAIRMORE GOLF CLUB

The mixed doubles competition for June was held on the 24th of June, with the following results:

1. Mrs. Harper and D. G. Mackenzie, 74.  
2. Miss Smith and J. B. Wilson and Mrs. Gillis and W. W. Scott, a tie, 77.  
The first of the annual inter-club games against Fernie was played at Fernie during the week end, with the following results:

Singles—Blairmore 12, Fernie 3.  
D. G. Mackenzie 1, A. Watson 0.  
J. B. Wilson 1, S. Herchmer 0.  
M. G. Rhynas 0, H. Haynes 1.  
W. Stevenson 1, D. M. Mitchell 0.  
W. Bird 1, J. S. Irvine 0.  
G. A. Passmore 1, E. K. Stewart.

A. J. Kelly 1, A. Sanborn 0.  
W. W. Scott 1, N. E. Suddaby 0.  
J. H. Farmer 1, J. R. Wallace 0.  
G. Steeves 0, J. Diamond 0.  
C. Emmerson 1, A. J. Corbett 0.  
M. H. Congdon 0, Dr. Kelman 1.  
F. J. Smith 1, K. Stewart 0.  
M. A. Pruden 0, R. Owen 1.  
L. L. Morgan 1, J. MacDonald 0.

Doubles—Blairmore 4, Fernie 2.  
D. G. Mackenzie and W. Stevenson 1, A. Watson and D. M. Mitchell 0.  
J. B. Wilson and M. G. Rhynas 1, S. Herchmer and H. Haynes 0.  
W. Bird and G. A. Passmore 0, E. K. Stewart and J. S. Irvine 1.  
A. J. Kelly and M. H. Congdon 0, A. Sanborn and Dr. Kelman 1.

W. W. Scott and L. L. Morgan 1, N. E. Suddaby and J. MacDonald 0.  
F. J. Smith and J. H. Farmer 1, A. J. Corbett and R. Owen 0.  
G. Steeves and C. Emmerson 0, J. Diamond and J. R. Wallace 0.  
Total—Blairmore 16, Fernie 5.

## ST. LUKE'S CHURCH

Rev. Mr. Nobbs will conduct services on Sunday, July 5th, as follows: Holy Communion 9 a.m.  
Evensong 7 p.m.

The old soaks in Ontario seem only too sorry that the 4-4 beer isn't what the Rev. Ben Spence says it is.

## LADIES' GOLF CLUB

A match was played against Fernie at Fernie with the following results:

Singles—Blairmore 1, Fernie 6.  
Mrs. Bird 0, Mrs. Watson 1.  
Mrs. Mackenzie 0, Mrs. Lawes 1.  
Miss Sellen 0, Mrs. Irvine 1.  
Mrs. Stevenson 0, Miss MacDonald 1.  
Mrs. F. J. Smith 1, Mrs. Kelman 0.  
Miss Marquis 0, Mrs. Herchmer 0.  
Mrs. Rhynas 0, Mrs. Brown 1.  
Mrs. Gillis 0, Miss Cody 1.

Doubles—Blairmore 2, Fernie 1.  
Mrs. Bird and Mrs. Mackenzie 0, Mrs. Watson and Mrs. Lawes 0.  
Miss Sellen and Mrs. Stevenson 1, Mrs. Irvine and Miss MacDonald 0.  
Mrs. Gillis and Mrs. Rhynas 0, Mrs. Brown and Mrs. Kirkpatrick 1.  
Total—Blairmore 3, Fernie 7.

## CALGARY EXHIBITION, JUBILEE AND STAMPEDE

Automobile races, setting out their usual thrills and sensations are once more, for the seventh consecutive year, to be a part of the Calgary Exhibition, Jubilee and Stampede. Saturday, July 11th, the final day of the annual thrill week is the time set aside for the dirt hogs to wheel out their mounts in what promises to be the greatest automotive derby ever staged for the west so far as dirt tracks are concerned.

Chief among the entries who have already signed is Fred Horey, twice champion of Canada and of the world and a driver who has wheeled every type of racing car over every type of track in both the United States and Canada. Horey at the present time holds seven world's records, all of which have stood the smashing attack that was made over the dirt tracks by that greatest record breaker of all time, Sig Haugdahl, the Norwegian speed phenom who hurled his record-making machine in a special over the hard sands of Daytona Beach at the rate of three miles a minute.

Johany DePalma, daring little Italian pilot and a cousin to the world famous Ralph, is trying to do on the dirt tracks what Peter DePaolo, another relative of the speedway idol, has already done on the paved courses. That is to uphold the speed reputation of the Italian and the famous DePalma family. DePalma has entered a fleet little Duesenberg, a car said to be one of the fastest of its make on the dirt tracks. DePalma will likely be matched in a special event with Horey.

Among the other pilots who have signed up for the events are Bobby Green and Emory Collins, Ford drivers; George Tibbitts, Bud Putman, Oscar Anderson, Billy Williams and Red Maley.

Six events are slated for the day's card and all will be run under the rules and with the sanction of the International Motor Contest Association.

Members of the local district detachment of the Salvation Army are being ably assisted in their open air meetings by Mr. Bob Evans, who recently arrived from England. Mr. Evans took particular interest in the open air form of worship and service in the Old Country and intends to carry out the practice here.

Lewis McDonald is still a "prominent" citizen at Drumheller. He is now figuring in the courts—not the first time, by any means. To defend himself in a charge laid against him recently, he asked for a new magistrate, claiming the old and tried individual would be biased against him. This time he is charged with assaulting a policeman, having a few years ago developed the so-thought ability to defend himself. McDonald travelled through this district a few years ago as Kid Burns and some local parties still have reasons to remember him through his leaving bills unpaid.

## CALGARY TEACHERS BACK PASS STAFF IN SALARY FIGHT

The Calgary public school local of the A.T.A. have written the local teachers pledging any assistance possible in their fight for the recognition of the A.T.A. The letter reads:

Secretary, A.T.A.,  
Blairmore, Alberta.

The executive of the above local has asked me to write you with reference to the trouble evident in your district.

We have been following with very great interest your splendid fight on behalf of all the teachers of the province. The proposed reduction in

salaries, and the refusal of the board to recognize our organization, must be met squarely, and the board must be made to realize that we are in existence to meet such cases as the present.

The Calgary teachers are entirely in sympathy with you, and will do all possible to make the final outcome satisfactory to yourselves and to our organization.

Yours sincerely,  
F. PARKER,  
Secretary-Treasurer, Calgary Local.

The license of the local G.W.V.A. club was lifted last week and will stand suspended indefinitely.

## A Lesson in Success

Teach your children to save. Open a Union Bank Savings Account for each of them. Let them be friends with the Bank Teller and take their own deposits to him.

WORLD HAPPENINGS  
BRIEFLY TOLD

A special squad of motorcycle riders is maintained by the Chicago Motor Club to rid the streets of glass.

June 21, was the 176th birthday of the City of Halifax. The event was observed June 22 by a civic and business holiday.

The Japanese Government has granted a subsidy of about \$250,000 to a school which will train Boy Scout leaders.

More than 500 British-born citizens have applied from Victoria, B.C., for admission to the United States during the fiscal year beginning July 1.

There are 472 persons employed in the various penitentiaries in Canada. It was noted in the House of Commons in answer to a question.

Germany's oldest public school teacher, who kept up his work until a short time before his death, died suddenly at the age of 103.

The Government of Mexico is prepared to spend \$50,000 a month to fight locusts in Vera Cruz, Chiapas, and Chihuahua, where the plague threatens to destroy the entire crop.

Official recount of the vote of Vancouver City ratifying annexation of South Vancouver, resulted in the majority against the proposal being increased from 100 to 116.

Twenty-five years ago a packet of sweet pea seeds were sent to a man at Sydney, Australia. This year the seeds were planted and are growing rapidly.

Ihalukpik, Copper Eskimo, is being returned to his native home at Coronation Gulf, under Canadian Chitoy, of the R.C.M.P., after serving a computed term at Stony Mountain penitentiary for manslaughter.

The Labor members of the House of Commons have passed a resolution condemning the proposed security pact with France as not being calculated to secure Franco-German conciliation.

A bundle of appeals, proclamations and handbills, sent by aeroplane in the hope of enlisting German sympathy for the movement in China, were received by the Deutsche Allgemeine Zeitung from Peking University students.

## Tubercular Veterans

Colonial Scheme For Patients As Carried On In England

The Canadian Government is considering the sheltered employment and colony scheme for tubercular patients which is being successfully used in England, declared Major N. S. Parkinson, deputy minister of soldiers' civil re-establishment, at the opening session of the annual convention of the Tubercular Veterans' Association at Ottawa.

Major Parkinson said the government first wanted the assurance that the veterans, if so placed, would stay with the colonies, and not become dissatisfied. He went into the details of the scheme, describing how, in England, patients were put into a group or colony, provided with shelter of a healthy nature, and provided with occupations such as sick men engage in.

## Golf In Far North

Game Played By Mounted Police 500 Miles North of Edmonton

Golf has at last penetrated into the North West Territories, as Inspectors Fraser and Fletcher, of the Royal Canadian Mounted Police at Fort Smith, 500 miles north of Edmonton, have established a four-hole course, where they practice the royal and ancient game.

When Inspector Fletcher arrived in Edmonton recently, he brought with him orders for several new golf clubs and a whole host of balls, as other ranks and members of the post have become imbued with the example set by their superiors.

Most the play has to take place between the trees, which appears to be no hardship to the Mounties.

## Peter the Hermit

The bones of Peter the Hermit, one of the leading preachers of the first crusade, are expected to have been found at Huy, while the ground surrounding an ancient cloister was being levelled. Peter the Hermit, also called Peter of Amiens, was born about 1050 and died at Huy, Belgium, on July 11, 1115. He led the advance of the first crusade as far as Asia Minor in 1096.

## Learning Western Ways

Plans for a modern cold storage and meat packing plant for Edmonton, involving an expenditure of possibly \$100,000, inclusive of equipment, are being made by the P. Burns Company, when the factory is completed. It will be possible to handle any refrigerated cars of better dairy.

## W. N. U. 1583

## Talking Films

First Display Is Now Being Made In Great Britain

Talking films are the latest attraction promised at the new Wembley exhibition. This is the first presentation of such films in Britain.

They are being shown in one of the conference halls, where they are being presented by Mr. R. B. Salisbury, in association with Messrs. de Forest Phonofilm, an American company, which owns all the British rights for the making of talking motion pictures. These pictures are made at the studio of the de Forest Company at Clapham.

The pictures, and the sound being recorded simultaneously are absolutely synchronized.

The future of the Phonofilm today is similar to that which faced the new art of the silent film when it was first realized in order to fulfill its mission as a means of entertainment and education. It must not follow blindly the path of the legitimate drama. An entirely new form of screen drama can now be worked out, taking advantage of the possibilities of introducing music and voices and appropriate acoustic effects.

It may be that soon printed titles will absolutely disappear and be replaced by a pleasant voiced speaker announcing the next item. In the realms of comedy, news items, scenic effects, educational films, interviews with notable men, and in many other directions the future of the Phonofilm holds unlimited possibilities.

## Proposed New Flag

Likely That Nothing Will Be Done This Year In The Matter

Nothing will be done this year about the proposed new Canadian flag. Following the appointment recently of a committee of government officials to consider designs for a national flag and submit recommendations to the government, criticism has been made on the ground that parliament should have first discussed the matter and decided what should be done. Premier King informed the house that in view of this an order-in-council had been passed cancelling the instructions to the committee of officials and the committee is now dissolved.

It is not likely that the matter will come up in the House of Commons this session.

## Port Of Vancouver

World Wide Trade Being Established At This Pacific Port

The increasing volume of Vancouver port in international trade, is evidenced by the report recently completed by the Vancouver Merchants' Exchange showing the distribution of trade during 1923, which was as follows: United Kingdom, \$50,000,000; worth of general cargo and lumber; Japan, \$20,500,000; China, \$18,645,000; United States, \$13,122,000; Australia and New Zealand, \$9,650,000; Mexico, \$5,585,000; France, \$5,100,000; Belgium, \$1,335,000; and to British Columbia ports, \$4,200,000. These figures are only for the more important markets and are for exports only.

## A Wonderful Instrument

London Scientists See Machine That Will Record Breathing of a Fly

A large bio-bottle fly was the centre of attraction at an assembly of members of the Royal Society, in London, who witnessed the working of an instrument called the Shakespeare kymograph, with which it was possible to measure the fly's respiration. It is claimed that the kymograph can measure also the breathing of a plant and the water vapor in the air and detect the most minute leakage of gas in the envelopes of balloons and airplanes. Tests are to be made to determine its value in medical research.

## Expects Big Crop

"The prairie wheat crop is off to the best start it has ever been since I have known anything about it, and that has been a good many years," declared Andrew Kolby, of the Western Canada Flour Mills. "Barring accident, we are in for what looks to me like the greatest crop in the history of Western Canada."

## Amend Dairy Industry Act

A bill to amend the Dairy Industry Act, providing heavier penalties for infraction of the act, and eliminating weaknesses that have become apparent during its administration, was approved by a special committee of the senate on agriculture and forestry without amendment.

Cold Storage Plant For Edmonton

Plans for a modern cold storage and meat packing plant for Edmonton, involving an expenditure of possibly \$100,000, inclusive of equipment, are being made by the P. Burns Company, when the factory is completed. It will be possible to handle any refrigerated cars of better dairy.

CLIPSE FASHIONS  
Exclusive Patterns  
Kilts and Skirts

A Junior Party-Frock

Each season the styles for children grow more fascinating. Designs and materials are chosen as thoughtfully as for grownups, and while the signs are more and more simple, they have gained in charm and individuality. Every little girl loves a party-frock, and No. 1032, of fine French voile, which comes in the most adorable colorings, and looks as light and filmy as chiffon, is sure to please her. The frock illustrated is a two-piece dress closing at the centre back, with short kimono sleeves tucked and seamed on shoulders, and three slightly circular flounces. It may have square or bateau neck, and is trimmed with a lace edging or insertion. The pattern is cut in sizes 8 to 14 years, the 12-year size requiring 3 1/2 yards of 36-inch material and 3/4 yard of 5-inch ribbon for sash.

Extend Time For Pensions Application

Amendment Was Approved By Special Committee of Senate

An amendment to the Pensions Act, extending the time for the filing of applications for pensions to within seven years after the date of the former soldier's discharge for retirement from the forces, has been approved by a special committee of the senate, considering the pension and gratuity bills, and conducting an inquiry into an accounting of monies advanced to the Great War Veterans' Association. Under the existing regulations, the time for making applications for pensions expired on August 31, 1924.

## Canada's First Geologist

Late Sir William Logan to Receive Signal Honor

Sir William Logan, Canada's first geologist, is likely to receive signal honor in New York and London, fifty years after his death, as the result of resolutions passed at Toronto by the local branch of the Canadian Institute of Mining and Metallurgy. The resolution asks that a duplicate be made of the fine portrait in Toronto and hung in the Canada House, London, the new office of the Canadian Government, opened by the King on June 29. Another copy of the portrait is to be made and hung in New York by the American Institute of Mining and Metallurgy.

## High Quality Wheat

Ninety-five per cent. of Canada's wheat crop in 1924 has been found to be of merchantable quality according to figures compiled by the Dominion bureau of statistics. Of the total estimated crop of last year, viz., 262,097,000 bushels, 250,000,000 bushels came up to the standard as compared with 454,504,000 bushels, or 86 per cent. of the 1923 crop of 474,199,000 bushels.

Tell the wife you were where you were not to do what you were not to do where you were.

## Old Age Pensions

Expense Considered Too Heavy To Inaugurate Plan At Present Time

The report of the special committee on old age pensions, tabled in the House of Commons by the chairman, W. O. Raymond, M.P., recommends "that the government arrange with the premiers of the different provinces for a conference, to be held during the coming recess of parliament, at which the old age pensions system shall be given the fullest consideration with a view to securing co-operative action, and that the report of the said conference be laid on the table at the next session of parliament for future consideration and action."

After tabulating the views expressed in communications from the various provincial governments, the report makes reference to the opinion of the federal department of justice to the effect that the matter of old age pensions is one coming under the jurisdiction of the provinces, although open to assistance from the Federal Government.

The chief conclusions arrived at by the committee, on which the recommendation for the holding of a conference is based, mainly include:

"First—That, if the Dominion Government were to proceed now with a scheme of old age pensions, it would have to be prepared to bear the entire expense, which would amount approximately to \$23,000,000 annually, according to the data obtained in your committee's investigations.

"Second—That in view of the present financial conditions and heavy taxation of Canada, your committee would not feel warranted at the present moment in recommending such a large expenditure annually.

"Third—That this measure of social reform, in the opinion of your committee, is very important.

## Rural Credits

Bill to Provide For Ten Million Dollars to Assist Agriculture

Hon. J. A. Robb, acting minister of finance, is bringing down a bill to provide for advances of not more than \$10,000,000 to the provinces for rural credits.

The bill will provide: 1.—That the governor-in-council may authorize advances to anyone, one or more, of the provincial governments for the purpose of assisting agriculture by enabling the provinces to make long term loans to farmers.

2.—That such advances shall be secured by the lands and delivery to the Dominion of bonds of the provinces.

3.—That the aggregate of advances to be made by the Dominion shall not exceed \$10,000,000.

## What Amundsen Discovers

Some Secrets of North Polar Cap Have Been Revealed

Half the shroud of ignorance which has hidden the secrets of the North Polar cap of the world has been ripped away by the knowledge brought back to civilization by Captain Roald Amundsen and his party of Arctic explorers. Half the polar zone now has been explored.

The greatest feat revealed so far in the absence of land in the polar basin, north of Norway. This vast area is a waste of sea and ice. If there is a new continent awaiting discovery in the northland it lies on the edge of the Siberian slopes of the crown of the world.

## Cost Of Administration

Expenditures on Rupert's Land and N.W. Territories Since 1870

Expenditures, including immigration, by the Federal Government on administration and development of Rupert's Land and the Northwest Territories total \$12,748,806 since these territories were united to Canada under imperial order in council in 1870.

A return to the order of the House of Commons shows also that receipts from sales of land in these territories total \$18,786,000 and from other revenue \$1,351,253.

## A Democratic Country

Surely Britain is the really democratic country. One of the most popular and respected of matchless men, part of his childhood in the workhouse; another, noted for her queenly beauty, at one time served in a shop.

## Offers Minto Ranch

The Earl of Minto is offering for sale, through his London agents, his ranch in Alberta, adjoining the "P.E." ranch, owned by the Prince of Wales. It is stated that the "P.E." ranch provides capital shooting and fishing.

## Proof Positive

"Mary is keeping her engagement a secret."

"How do you know?"

"She told me."

## Erect Main Wireless Station At Alkavik

Work in Northern Territory Will Be Done This Summer

It has been decided to establish the most northerly main station of the Northwest Territories and Yukon wireless system at Alkavik. The Mackenzie River delta. Alkavik is more than 2,000 miles north of Edmonton by the regular travelled routes and is the terminal of the Mackenzie River navigation, and the northern winter mail service. Accessible to the inhabitants of the Arctic coast in summer and winter, it has become the centre of the fur trade from Coronation Gulf to the Alaskan boundary.

## Luxuries In Wilderness

Whites At Fort Simpson Welcome First Provision Boat

A wireless dispatch from Fort Simpson, in the Canadian sub-Arctic, tells how the white population of that far northern post threw away their winter coats for coats of seal, and how can openers after a winter of bacon and beans, and stormed the first egg boat of the season. Great crates full of eggs were reduced to empty shells in an hour. The population were trying then with one hand and eating them with the other, say the correspondent. Oranges and cigarettes, luxuries almost forgotten by the fifty-two souls who live 1,000 miles north of Calgary, were demolished with almost equal voracity and it was an empty sack that rode at the Simpson Landing on the Mackenzie River, a few hours after its arrival.

## Abbreviated Garb Is Healthy

In view of the low-cut neck effect, short skirts and spider web stockings which are now the mode, girls have a better chance for health than boys who usually wear too much clothing.

In the opinion of Dr. Leonard Hill, of the National Institute of Medical Research, London, it is because these fads of the women and girls permit more of the ultra violet rays to enter their bodies, the doctor declares.

## Want Australian Governors

It has been definitely decided by the premiers of four of the Australian states or provinces, Queensland, Tasmania, South Australia and Western Australia, to approach the British Government with a request that in future the governors of the Australian states shall be Australians.

## A British Opinion

London Times Editorially Lauds Consumption of Church Union

"News that the Anglican has been elected by the new United Church of Canada," declares the London Times editorially, "will be welcome to that large body of English men and women who are weary of the continual feuds of Christian bodies and bitterly resent the consequent diversion of valuable energy away from problems that matter to controversies that are secondary. The United Church of Canada made an appeal in the imagination that is lacking in any merely co-operative scheme."

## Memorial Window Unveiled

Names Of 43 Canadian Women On Scroll In York Minister

The Five Sisters' Window in York Minister was unveiled by H.R.H. Duchess of York on June 24. This is the Women's National Memorial to all the "Sisters" of the Empire who laid down their lives in the Great War. The names of forty-three Canadian women are on the scroll. The name of all the women who died as a result of their services will be inscribed on an oak screen attached to the window. One of the panels will contain the names of the members of the Canadian Nursing Sisters with their badge emblazoned thereon. This Memorial Screen will be historical as showing the various ways in which women helped the Empire.

## A Romance of the Spanish Main CAPTAIN BLOOD

RAFAEL SABATINI

Copyrighted, 1922, by Rafael Sabatini

CAPTAIN BLOOD, a Vignette picture with J. Warren Kerrigan in the title role, is an adaptation of this thrilling novel.

### CHAPTER XXV.—Continued.

WHEN an hour, the water-casks at least replenished and stowed aboard, the Arabella and the Elizabeth put to sea upon that angry chase.

"What now, Peter?" cried the young Jeremy Pitt. "Lord, man what is there here to fret you. Surely that's the thought of Rivaroli."

"No," said Blood quickly. "And for once he was communicative. It may well be that he must vent the thing that oppressed him or be driven mad by it."

"And Pitt, after all he was his friend and loved him, and a poor man for confidence. But if she knew! If she knew! Oh God! I had thought to have done with piracy; thought to have done with it for ever. Yet here I have been conspired by this scoundrel to do this piracy that ever I was guilty of. Think of Cartagena! Think of the hell those devils will be making of it now! And I must have that on my soul!"

Setting a course for Hispaniola, since they judged that either must Rivaroli go to rest before attempting to cross to France, the Arabella and the Elizabeth ploughed briskly northward with a moderately favourable wind for two days and nights without ever catching a glimpse of their quarry. The third dawn brought with it a haze which drummed their range of vision to something between two and three miles, and deepened their growing vexation and their apprehension that M. de Rivaroli might escape them altogether.

"They had Jamaica on their far-board beam some thirty miles to westward, and, indeed, away to the westward, thirty miles as a bank of clouds, appeared the great ridge of the Blue Mountains whose peaks were thrust into the clear upper air above the low-lying haze. The wind was westerly, and it bore to their ears a booming sound which in less experienced ears might have passed for the breaking of surf upon a lee shore.

"Guns!" said Pitt, who stood with Blood upon the quarter-deck. Blood glared, listening.

"Ten miles away, perhaps fifteen—somewhere off Port Royal, I should judge," Pitt added. "Then he looked at his captain. "Does it concern us?" he asked.

"Guns off Port Royal. . . that should argue Colonel Bishop at work. I think it may concern us. Anyway, we'll stand in to investigate."

"Close-hauled they lacked a vessel, guided by the sound of combat, for an hour, perhaps. Then, as, telescope to his eye, Blood raked the haze, the guns abruptly ceased. They held to their course, nevertheless, with all hands on deck, eagerly, anxiously scanning the sea about. And presently an object loomed into view, which soon defined itself for a great

ship on fire. As the Arabella with the Elizabeth following closely, raced nearer on their northwesterly track, the outlines of the blazing vessel grew clearer.

"An English ship!" he cried.

He scanned the seas for the conqueror in the battle of which this grim evidence was added to that of the sounds they had heard, and then, at last, as they drew closer to the doomed vessel they made out the shadowy outlines of three tall ships—some three or four miles away, standing in toward Port Royal. Pitt, who through the telescope was examining the receding squadron, observed things apparent only to the eye of the trained mariner, and made the incredible announcement that the largest of these three vessels was Rivaroli's Victory.

"They took in sail and here to as they came up with the drifting boats, laden to capacity with survivors.

CHAPTER XXVI. The Service of King William.

One of the boats bumped alongside the Arabella, and up the entrance ladder came first a slight, spruce little gentleman in a coat of mulberry velvet, with a gold, whose wisened, yellow, rather peevish face was framed in a heavy black periwig. His modish and costly apparel had nowise suffered by the adventure through which he had passed, and he carried himself with the easy assurance of a man of rank. He was closely followed by one who in every particular, save that of age, was the physical opposite, corpulent in a brawny, vigorous way with a full, round, weather-beaten face whose mouth was humorous and whose eyes were blue and twinkling.

It was the Dutch Admiral who answered him. "Would he go down if he were sent to the West Indies? He is one of our men prisoners. Perhaps he will tell us what he knows. He is a great obsequious."

(To be continued)

Women At Wembley

Taking Greater Interest in Empire Exhibition Than Ever Before

Women are going to have more to do with this year's Wembley exhibition than they did last year. Queen Mary will pay many more visits during the summer, if her engagements permit.

Under the presidency of the Duchess of York and the vice-presidency of Princess Mary, the women's section has organized many functions, including a "National Baby Week."

The march of women into spheres hitherto exclusively held by men is indicated by the intention to hold a conference of women engineers.

The majority of women, however, will be engaged principally in the food section, giving hints on household affairs, the selection of fruits and food, and demonstrating the latest house-hold labor-saving appliances.

A Judicial Contrast

The London Advertiser publishes the fact of two Ontario cases and makes no comment, because comment is needless. A former Hamilton police officer got two years for stealing two bars, while near London a motorist who ran down and killed a small boy and then speeded away got six months.

St. Catharines Standard.

The cynical bachelor observes that many a fellow who tells a girl she is as sweet as sugar only gets stung.

damned pirate, ran der Kuylen. Read my vitals, but we're come from Seyla to Charybdis."

"Ro!" said the other gurglingly, and again, "Ro!" Then the humor of it took him, and he yielded to it.

"Dumme! What's to laugh at, you porpoise!" spluttered mulberry-coat. "A fine tale that'll make at home! Admiral van der Kuylen first loses his ship, in the night, then his ship's dashed under him by a French squadron, and ends all by being captured by a pirate. I'm glad you find it matter for laughter. Since for my sins I happen to be with you, I'll damn it if I do."

"There's a misapprehension, if I may make so bold as to point it out, put in Blood quietly. "You are not captured, gentlemen; you are rescued. When you realize it, perhaps it will occur to you to acknowledge the hospitality I am offering you. It may be poor, but it is the best at my disposal."

"Dumme. Do you permit yourself to be trivial?" he disappeared behind the Lord Widdoway, leaving William's Governor-General of the West Indies, and this is Admiral van der Kuylen, commander of His Majesty's West Indian fleet, at present mislaid somewhere in this damned Caribbean Sea."

"King William," quoth Blood. "And who may be King William, and of what may he be King?"

"I am alluding to His Majesty King William III., of Orange, of course, with Queen Mary, has been ruling England for two months and more."

"Dye mean, sir, that they've roused themselves at home, and kicked out that scoundrel James and his gang of ruffians?"

"Billo! Hadn't you heard? Where the devil have you been at all?"

Briefly he gave an account. After that, with renewed assurance that his ship they should be honorably treated, Captain Blood led the Governor-General and the Admiral to his cabin, what time the work of rescue went on.

"Go home, if you will," said his lordship when comfortable. Here is a great chance for you, since you declare yourself sick of piracy. Should you choose to serve King William out here during his war, your knowledge of the West Indies should render you a very valuable servant to His Majesty's Government, which you should consider it. Dumme, sir, I repeat: it is a great chance you are given."

"But come in to see that the work of rescue was at an end, and the men picked up—some forty-five in all—sailed aboard the two buccanier ships. He asked for orders. Blood rose.

"An neglect of your lordship's concerns in my consideration of my own. You'll be wishing me to land you at Port Royal."

"At Port Royal?" The little man quivered wrathfully on his seat. "What chance, and at length he informed Blood that they had put into Port Royal last evening to find its Deputy-Governor absent. "He had gone on some wildgoose chase to Tortuga, after buccaniers, taking the whole of the night with him."

"Is Rivaroli aware of this?" Blood tried sharply.

It was the Dutch Admiral who answered him. "Would he go down if he were sent to the West Indies? He is one of our men prisoners. Perhaps he will tell us what he knows. He is a great obsequious."

### Amazing Adventures Of Captain Gardiner

Englishman Acquitted of Fraud, Has Had Thrilling Career

These are some of the things done, according to his own story, during an adventurous life by Charles Alfred Gardiner, 68, who was at the Old Bailey, London, found not guilty, on charges of obtaining a cheque for £200,000 by false pretences from the Gardiner Shipbuilding and Engineering Company, Poole, Dorset, of which he was director, of publishing false statements and intimations and also become shareholders, and of perjury.

After Captain Gardiner had given evidence, the jury stopped the case, and he was found not guilty and discharged.

Gardiner said that he had all the money in Port Arthur in the Russo-Japanese war. In the Chilean revolution he was in command of the crew of one of the Chilean vessels, and in the Boer war he was in command of the Australian Battalion. Up to 1915 he believed he held the world's record as a diver for staying under the water 3 hours and 22 minutes.

During the war he saved the Oceanic (the White Star liner) from being an armed merchant cruiser, sunk off the north coast of Scotland in 1914, and commanded one of the "Q" or "mystery" boats. He invented a locking system for mines and a submarine mine, and also invented not-cuttable submarine nets. He had been nine times wounded in the course of his life.

Honors Memory Of Paul Kruger

Prince Places Wreath On Monument Of Britain's One-Time Foe

The Prince of Wales placed a wreath on the monument of Paul Kruger, "Oom Paul," who was credited with being the soul of the policy that brought on the Boer War of 1895-1902.

He was president of the provisional government after the war against Britain in 1881, and in 1883 was elected president of the Transvaal Republic. He held that office as long as the republic lasted.

The prince, in the course of a speech, expressed the hope of some day being able to visit South Africa to "reconcile" the two peoples. "It is no polite platitudes when I say I will do my best to come back."

Religious Tolerance in Germany

President Von Hindenburg has promised to foster the spirit of religious tolerance in Germany, and conscientiously to respect and protect all creeds. His declaration was made after he had received representatives of the inter-denominational church alliance, composed of German Evangelical, Catholic and Jewish delegations who called to congratulate him upon his assumption of the German presidency.

Wise and experienced mothers know when their children are troubled with worms and loss no time in applying Miller's Worm Powder, a most effective vermifuge. It is absolute in clearing the system of worms and restoring general health to decline, and it is the only one that can be used for the child, or of robust growth.

Pig iron prices are off a dollar, may be due to the supply of bridge's biscuits coming in June.

It's a wonder money doesn't blush when made to talk the way it does by some people.

But for the need of horrible examples a man's usefulness would never be properly listed.

There's no place like home, except sometimes, a mad house.

### She Said He Was "Incurable"

By Marjorie Bradford, Social Service Council of Canada.

A woman brought her son into one of our Canadian juvenile courts a short time ago because, as she termed it, the boy was incurable. He would not stay in school and was getting his parents into continual difficulty.

When the boy gave his side of the story to the judge he said that school always gave him a headache.

The boy, on being examined by the court doctor, was discovered to be totally blind in one eye with the sight of the other already seriously impaired. And this poor ignorant mother thought he was "incurable."

The boy was immediately given treatment which saved and even improved the sight of his eye. If the condition had been known in time the sight of his other eye might also have been saved.

Of 24,000,000 school children in the United States, 6,000,000 are retarded in their studies. And of these 6,000,000 retarded children, 2,000,000 are retarded because of defective eyesight. It is estimated that defective eyesight among school children costs American taxpayers \$120,000,000 a year.

Similar figures for Canada are not available but they are estimated to be relatively the same. That is more than 8 per cent of our Canadian school children are suffering under a most handicap because of defective eyesight. I wonder how many of these children have been adjudged stupid or "incurable?"

Admiral Sturdee's White Feather

Naval Hero Equipped As Slacker By Anti-Patriotic Women

Admiral Sir Doveton Sturdee, who died in England this spring, was the admiral who chased and defeated the squadron of Admiral Von Spee off the Falkland Islands, the second year of the war. When, after that battle, he returned to England early in 1916, he followed the custom of every other officer of his time and went straight into mud.

At that time ultra-patriotic young ladies were infesting the streets of London and other English cities, thrusting white feathers into the hands of able-bodied men who seemed to be shirking their responsibilities.

Admiral Sturdee was walking down Whitehall on his way to the admiralty, he was held up by one of these young women, who gravely presented him with a white feather, which she thrust into his coat.

The admiral, who was turning into the adjoining recruiting office at Scotland Yard without delay. Thus equipped as a poltroon, the hero of the biggest naval victory since Trafalgar marched down Whitehall to talk over the details of the affair with his colleagues of the admiralty—Argonaut.

The Village Blacksmith

Effort Being Made in Britain To Prevent Passing Off as Picturesque Figures

Strenuous efforts are being made in agricultural districts of England to save the picturesque old-fashioned village blacksmith from passing into oblivion. The sight of England today is not "tolling and refusing" to draw undue attention to himself, but is "erowing" a great deal more than in the days when Longfellow idealized him—all because of the advent of the automobile and the motor tractor.

In their desire to "save" the village blacksmith the Hertfordshire county council members announced recently particulars of a plan designed to keep alive the decaying industry which has been so hard hit by the modern organization of the big manufacturers and their agents who supply standardized parts of farm implements and machinery on lines of mass formation.

The ministry of agriculture has become interested in the scheme to prevent the passing of the blacksmith and has agreed to co-operate in the movement.

Devastating Canada

Cutting down trees and making them into logs to be rushed out of the country to pulp and paper mills in the United States, where highly paid labor is employed in turning them into paper, will never enrich Canada. On the contrary, it will devastate her resources of raw material and keep her people poor—Toronto Mail and Empire.

Natives In Congo Superstitious

The natives in the Congo region are firm believers in demons and witches. The number of people annually put to death by the natives in the Congo is unknown, for the witch-doctors pursue their dreadful trade in secret, but it is believed to be very large, for no mercy is shown to anyone convicted of witchcraft.

There's no place like home, except sometimes, a mad house.

### Submerged Village Re-appears

Roofs Of Swiss Houses Visible After 300 Years

After 300 years, a submerged Swiss village in the upper valley of the Saas has re-appeared, owing to the low level of the waters of Lake Aarona. The original catastrophe was caused by a landslide from the Monte Porzill, which destroyed 44 houses of the village of Aarona, together with the inhabitants and their cattle. As a result of the landslide a lake was then formed, but owing to the waters now receding the roofs of the old dwellings are again visible.

Stomach Trouble

Due To Thin Blood

It Usually Disappears When the Blood Is Made Rich and Red

This blood is one of the most common causes of stomach trouble. It affects the digestion very quickly. The glands that furnish the digestive fluids are diminished in their activity, the stomach muscles are weakened and there is a loss of nerve force. In this state of health nothing will more quickly restore the stomach, than Dr. Williams' Pink Pills, which strengthen and nourish the system to good, rich, red blood.

Dr. Williams' Pink Pills act directly on the blood, making it rich and red, and this enriched blood strengthens the weak nerves, stimulates tired muscles and awakens to normal activity the glands that supply the digestive fluids. This is shown by an improved appetite, and soon the effect of these blood-enriching pills is evident throughout the whole system. You find that what you eat does not distress you, and that you are vigorous instead of irritable and listless. If your appetite is sickly, if you have any of the tired aching pains and symptoms of indigestion, you should at once take Dr. Williams' Pink Pills and profit by the service best condition in which they will put your blood.

These pills are sold by all dealers in medicine, or you can get them by mail at 25¢ a box from The Dr. Williams' Medicine Co., Brockville, Ont.

War and the Auto

In 1924, 19,000 human beings were killed and 450,000 were injured by the automobile in these United States. This is a record, and it is a record that Americans leaved by the automobile in the year 1924 is numerically 50 per cent greater than was the total casualty toll for the American armies and navies in the nineteen months which the United States was at war with Germany—Louisville Courier-Journal.

Time has Tested It—Dr. Thomas' Eucalypti Oil has been on the market upwards of fifty years and in that time it has proved a blessing to thousands. This is because it is pure, and its excellence has carried its fame beyond the seas. If it were not for the price it would be a cheap liniment.

Some of the horses of the mounted police in London are valued at \$2,000, more than the selling price of many race horses.

We didn't know a couple were married until we saw them yawning.

PAINS IN BACK AND SIDES

Ended by Taking Lydia E. Pinkham's Vegetable Compound

Fussler, Sask.—"For two or three days my back and sides were so sore that I could not do anything—could not even lie down. I was so bad that I was married. I was this way about three years, but was worse after I was married. I was on a farm with not a house nearer than a mile and there was not a person to help me. My doctor told me about Lydia E. Pinkham's Vegetable Compound and told me to try it. I took the advice and have been thankful for it ever since. After taking the medicine for three months I can say it has helped me a lot and I am doing fine. I am glad to recommend the Vegetable Compound to others and you may publish my testimonial."

Often some slight trouble will cause a general upset of the system. Such symptoms as nervousness, painful times, irregular menstruation, and headache indicate some form of female weakness. Women so bothered should give Lydia E. Pinkham's Vegetable Compound a trial. This dependable medicine has helped thousands of women and it is reasonable to expect to help you, too. Try it today. Your druggist sells this medicine.

WORLD HAPPENINGS  
BRIEFLY TOLD

A special squad of motorcycle riders is maintained by the Chicago Motor Club to rid the streets of glass.

June 21, was the 176th birthday of the City of Halifax. The event was observed June 22 by a civic and business holiday.

The Japanese Government has granted a subsidy of about \$250,000 to a school which will train Boy Scout leaders.

More than 500 British-born citizens have applied from Victoria, B.C., for admission to the United States during the fiscal year beginning July 1.

There are 472 persons employed in the various penitentiaries in Canada. It was stated in the House of Commons in answer to a question.

Germany's oldest public school teacher, who kept up his work until a short time before his death, died suddenly at the age of 102.

The Government of Mexico is prepared to spend \$50,000 a month to fight locusts in Vera Cruz, Chiapas and Chihuahua, where the plague threatens to destroy the entire crop.

Official report of the vote of Vancouver City ratayers on annexation of South Vancouver, resulted in the majority against the proposal being increased from 108 to 116.

Twenty-five years ago a packet of sweet pea seeds were sent to a man at Sydney, Australia. This year the seeds were planted and are growing rapidly.

Kalkulap, Copper Eskimo, is being returned to his native home at Coronation Gulf, under Commission of the R.C.M.P., after serving a commuted term at Stony Mountain penitentiary for manslaughter.

The Labor members of the House of Commons have passed a resolution condemning the proposed security pact with France and Belgium and decided to secure Franco-German conciliation.

A bundle of appeals, proclamations and handbills, sent by aeroplane in the hope of eliciting German sympathy for the movement in China, were received by the Deutsche Allgemeine Zeitung from Peking University students.

## Tubercular Veterans

Colony Scheme For Patients As Carried On In England

The Canadian Government is considering the sheltered employment and colony scheme for tubercular patients which is being successfully used in England, declared Major N.F. Parkinson, deputy minister of soldiers' civil re-establishment, at the opening session of the national convention of the "Tubercular Veterans' Association" at Ottawa.

Major Parkinson said the government first wanted the assurance that the veterans, if so placed, would stay with the colonies and not become dissatisfied. He went into the details of the scheme, describing how, in England, patients were put into a group or colony, provided with shelter of a healthy nature, and provided with occupations such as sick men engage in.

## Golf In Far North

Game Played By Mounted Police 500 Miles North of Edmonton

Golf has at last penetrated into the North West Territories, as Inspectors Fraser and Fletcher, of the Royal Canadian Mounted Police at Fort Smith, 500 miles north of Edmonton, have established a four-hole course, where they practice the royal and ancient game.

When Inspector Fletcher arrived in Edmonton recently, he brought with him orders for several new golf clubs and a whole host of balls, as other ranks and members of the post have become imbued with the example set by their superiors.

Most of the play has to take place between the trees, but that appears to be no hardship to the Monties.

## Peter the Hermit

The bones of Peter the Hermit, one of the leading preachers of the first crusade, are reported to have been found at Huy, while the ground covering an ancient cloister was being levelled. Peter the Hermit, also called Peter of Amiens, was born about 1050 and died at Huy, Belgium, on July 11, 1115. He led the advance of the first crusade as far as Asia Minor in 1096.

## Learning Western Ways

The Japanese are fast learning western ways. Several persons have been charged with fraud in an attempt to sell stock in a company which claimed to have a secret process for making silk from straw.

W. N. U. 1533

## Talking Films

First Display is Now Being Made in Great Britain

Talking films are the latest attraction promised at the new Wembley exhibition. This is the first presentation of such films in Britain.

They are being shown in one of the conference halls, where they are being presented by Mr. E. D. Selousbury, in association with Messrs. De Forest Phonofilm, an all-British company, which owns all the British rights for the making of talking motion pictures. These pictures are made at the studio of the De Forest Company at Chiswick, near London.

The pictures and the sound being recorded simultaneously are absolutely synchronized.

The future of the Phonofilm today is similar to that which faced the new art of the silent picture when it was first realized that in order to fulfil its mission as a means of entertainment and education, it must not follow blindly the path of the legitimate drama. An entirely new form of screen drama can now be worked out, taking advantage of the possibilities of introducing music and voice and appropriate acoustic effects.

It may be that soon printed titles will absolutely disappear and be replaced by a pleasant voiced speaker who, in the next scene, is in the announcing the next item. In the realm of comedy, news items, scenic effects, educational films, interviews with notable men, and in many other directions the future of the Phonofilm holds unlimited possibilities.

## Proposed New Flag

Likely That Nothing Will Be Done This Year in the Matter

Nothing will be done this year about the proposed new Canadian flag. Following the appointment recently of a committee of government officials to consider designs for a national flag and submit recommendations to the government, criticism has been made on the ground that parliament should have first discussed the matter and decided what should be done. Premier King informed the house that in view of this an order-in-council had been passed cancelling the instructions to the committee of officials and the committee is now dissolved.

It is not likely that the matter will come up in the House of Commons this session.

## Port Of Vancouver

World Wide Trade Being Established At This Pacific Port

The increasing importance of Vancouver port in international trade, is evidenced by the report recently compiled by the Vancouver Merchants' Exchange showing the distribution of trade during 1923, which was as follows: United Kingdom, \$20,600,000; Japan, \$20,500,000; China, \$15,645,000; United States, \$13,122,000; Australia and New Zealand, \$9,550,000; Mexico, \$3,535,000; France, \$2,100,000; Belgium, \$1,325,000; and to British Columbia ports, \$42,300,000. These figures are only for the more important markets and are for exports only.

## A Wonderful Instrument

London Scientists See Machine That Will Record Breathing of a Fly

A large blue-bottle fly was the centre of attraction at an assembly of members of the Royal Society, in London, who witnessed the working of an instrument called the "katharometer" which, with which it was possible to measure the fly's respiration. It is claimed that the katharometer can measure also the breathing of a plant, and the water vapor in the air and detect the most minute leakages of gas in the envelope of balloons and airships. Tests are to be made to determine its value in medical research.

## Expects Big Crop

"The prairie wheat crop is off to the best start it has ever been since I have known anything about it, and that has been a good many years," declared Andrew Kelly, of the Western Canada Flour Mills. "Barring accident, we are in for what looks to me like the greatest crop in the history of Western Canada."

## Amend Dairy Industry Act

A bill to amend the Dairy Industry Act, providing heavier penalties for violation of the act, and eliminating weaknesses that have become apparent during its administration, was approved by a special committee of the senate on agriculture and forestry without amendment.

Cold Storage Plant For Edmonton Plans for a modern cold storage and creamery plant at Edmonton, involving an expenditure of possibly \$100,000, inclusive of equipment, are being made by the P. Burns Company. When the factory is completed, it will be possible to handle nine refrigerators cars of butter daily.

Each season the styles for children grow more fascinating. Designs and materials are chosen as thoughtfully as for grownups, and while the designs are more and more simple, they have gained in charm and individuality. Every little girl loves a party frock, and No. 1032, of fine French voile, which comes in the most adorable colorings, and looks as light and airy as chiffon, is sure to please her. The frock illustrated is a two-piece dress closing at the centre back, with short kimono sleeves tucked and seamed on shoulders, and three slightly circular flounces. It may have square or bateau neck, and is trimmed with lace or edging or insertion. The pattern is cut in sizes 8 to 14 years, the 12-year size requiring 3 1/2 yards of 36-inch material and 3/4 yard of ribbon for sash.

## Extend Time For Pensions Application

Amendment Was Approved By Special Committee of Senate

An amendment to the Pensions Act, extending the time for the filing of applications for pensions to within seven years after the date of the former soldier's discharge for retirement from the forces, has been approved by a special committee of the senate, considering the pensions and canteen fund bills, and conducting an inquiry into an accounting of pensioners granted to the Great War Veterans' Association. Under the existing regulations, the time for making applications for pensions expired on August 31, 1924.

## Canada's First Geologist

Late Sir William Logan to Receive Signal Honor

Sir William Logan, Canada's first geologist, is likely to receive signal honor in New York and London, fifty years after his death, as the result of resolutions passed at Toronto by the local branch of the Canadian Institute of Mining and Metallurgy. The resolution asks that a duplicate be made of the fine portrait in Toronto and hang in the Canada House, London, the new office of the Canadian Government, opened by the King on June 29. Another copy of the portrait is to be made and hung in New York by the American Institute of Mining and Metallurgy.

## High Quality Wheat

Ninety-five per cent. of Canada's wheat crop in 1924 has proved to be of merchantable quality according to figures compiled by the Dominion bureau of statistics. Of the total estimated crop of last year, 146,289,097 bushels, 250,024,000 bushels came up to the standard as compared with 454,804,000 bushels, or 56 per cent. of the 1923 crop of 474,199,000 bushels.

Tell the wife you were where you were not so she will think you were not where you were.

## Old Age Pensions

Expense Considered Too Heavy To Inaugurate Plan At Present Time

The report of the special committee on old age pensions, tabled in the House of Commons by the chairman, W. O. Raymond, M.P., recommends "that the government arrange with the premiers of the different provinces for a conference, to be held during the coming recess of parliament, at which an old age pensions system shall be given the fullest consideration with a view to securing co-operative action, and that the report of the said conference be laid on the table at the next session of parliament for future consideration and action."

After pointing out the views expressed in communications from the various provincial governments, the report makes reference to the opinion of the federal department of justice to the effect that the matter of old age pensions is one coming under the jurisdiction of the provinces, although open to assistance from the Federal Government.

The chief conclusions arrived at by the committee, on which the recommendation for the holding of a conference is based, mainly include:

"First—That, if the Dominion Government were to proceed now with a scheme of old age pensions, it would have to be prepared to bear the entire expense, which would amount approximately to \$23,000,000 annually, according to the data obtained in your committee's investigations.

"Second—That in view of the present financial conditions and heavy tax burden of Canada, your committee would not feel warranted at the present moment in recommending such a large expenditure annually.

"Third—That this measure of social reform, in the opinion of your committee, is very important."

## Rural Credits

Bill to Provide For Ten Million Dollars to Assist Agriculture

Hon. J. A. Robb, acting minister of finance, is bringing down a bill to provide for advances of not more than \$10,000,000 to the provinces for rural credits.

The bill will provide:

1.—That the governor-in-council may authorize advances to anyone, one or more, of the provincial governments for the purpose of assisting agriculture by enabling the provinces to make long term loans to farmers.

2.—That such advances shall be secured by the lands and delivery to the lender of bonds of the provinces.

3.—That the aggregate of advances to be made by the Dominion shall not exceed \$10,000,000.

## What Amundsen Discovered

Some Secrets of North Polar Cap Have Been Revealed

Half the shroud of ignorance which has hidden the secrets of the North Polar cap of the world has been ripped away by the knowledge brought back to civilization by Captain Roald Amundsen and his party of Arctic explorers. Half the polar zone now has been explored.

The greatest fact revealed so far is the absence of land in the polar basin, north of Norway. This vast area is a waste of sea and ice. There is a new continent awaiting discovery in the northland it lies on the Canadian and Siberian slopes of the crown of the world.

## Cost Of Administration

Expenditures on Rupert's Land and N.W. Territories Since 1870

Expenditures, including immigration, by the Federal Government on administration and development of Rupert's Land and the Northwest Territories total \$122,755,806 since these territories were united to Canada under imperial order in council in 1870.

A return to the order of the House of Commons shows also that receipts from sales of land in these territories total \$28,780,250 and from other revenues \$22,251,288.

## A Democratic Country

Surely Britain is the really democratic country. One of the most popular and respected of marchionesses spent part of her childhood in the workhouse; another, noted for her queenly beauty, at one time served in a shop.

## Offers Minto Ranch

The Earl of Minto is offering for sale, through his London agent, his ranch in Alberta, called the "R.P." ranch, owned by the Prince of Wales. It is stated that the Minto ranch provides capital shooting and fishing.

## Proof Positive

"Mary is keeping her engagement a secret."

"How do you know?"

"She told me."

**CAPTAIN BLOOD**, a Vitaphone picture with J. Warren Kerrigan  
in the title role, is an adaptation of this thrilling novel

## CHAPTER XXV—Continued.

Within an hour, the three canoes at least repulsed and toward the Arabella and the Elizabeth put to sea upon that angry chase.

"What now, Peter?" cried the young Jeremy Pitt. "Lord, man what is there here to fret you. Surely, 'can't the thought of Rivaroli?"

"No," said Blood quickly. "And for once he was communicative. It may well be that he must want the thing that oppressed him, or be driven mad by it. And I, after all, was his friend and loved him, and so, a proper man for confidence. But if she knew? If she knew? Oh God! I had thought to have done with piracy, thought to have done with it for ever. Yet here have I been committed by fate assigned to the worst of all piracy that ever I was guilty of. Think of Carapana! Think of the hell those devils will be making of it now! And I must have that on my soul!"

Setting a course for Hispaniola, since they lacked that uttermost Rivaroli to rest before attempting to cross to France, the Arabella and the Elizabeth ploughed briskly toward with a moderately favourable wind for two days and nights without ever catching a glimpse of their quarry. The third dawn brought with it a haze which obscured their range of vision to something between two and three miles, and deepened their growing vexation and their apprehension that M. de Rivaroli might escape them altogether.

They had jametes on their lashed beam some thirty miles to westward, and, indeed, away to the northwest, faintly visible as a bank of clouds, appeared the great ridge of the Blue Mountains whose peaks were thrust into the clear upper air above the low-lying haze. The wind was westerly, and it bore to their ears a booming sound which in less experienced ears might have seemed the breaking of surf upon a lee shore.

"Guns!" said Pitt, who stood with Blood upon the quarter-deck. Blood nodded, listening.

"Ten miles away, perhaps fifteen—somewhere off Port Royal, I should judge," Pitt added. Then he looked at his captain. "Does it concern us?" he asked.

"Guns off Port Royal. . . that should argue Colonel Bishop at work. I think it may concern us. Anyway, we'll stand in to investigate."

Close-hauled they tacked seaward, guided by the sound of combat, for an hour, perhaps. Then, as, telescope to his eye, Blood raised the haze, the sun's rays came, they held to their course, nevertheless, with all hands on deck, eagerly, anxiously scanning the sea ahead. And presently an object loomed into view, which soon defined itself for a great

ship on fire. As the Arabella with the Elizabeth following closely raced nearer on their northwesterly tack, the outlines of the blazing vessel grew clearer.

"An English ship!" he cried. "He cannoned the seas for the conqueror in the battle of which this grim evidence was added to that of the sounds they had heard, and then at last, as they drew closer to the doomed vessel, they made out the shadowy outlines of three tall ships, some three or four miles away, standing in toward Port Royal. Pitt, who through the telescope was examining the receding squadron, observed things apparent only to the eye of the trained mariner, and made the hasty announcement that the largest of these three vessels was Rivaroli's Victory. They took in sail and hove to as they came up with the drifting boats, laden to capacity with survivors.

## CHAPTER XXVI.

## The Service of King William.

One of the boats bumped alongside the Arabella, and up the entrance ladder came first a slight, spruce little gentleman in a coat of mulberry satin lined with gold, whose wisened, yellow, rather periwinkle face was framed in a heavy black periwinkle. His modish and costly apparel had nowise suffered by the adventure through which he had passed, and he carried himself with the easy assurance of a man of rank. He was closely followed by one who in every particular, save that of age, was the physical opposite, corpulent in a brawny, vigorous way, with a full, round, weather-beaten face whose mouth was humorous and whose eyes were blue and twinkling.

"Darnell! What's to laugh at, you porpoise," spluttered mulberry-coat.

As the little man stepped from the ladder into the waist, whither Captain Blood had gone to receive him, his sharp, ferret-like eyes swept the uncounted ranks of the assembled crew of the Arabella.

"And where the devil may I be now?" he demanded irritably. "Are you English, or what the devil are you?"

"Myself, I have the honour to be Irish, sir. My name is Blood, and this is my ship the Arabella, all very much at your service."

"Blood!" shrieked the little man. "O Blood! A ghoul!" He swung to the Colossus who followed him—"A

damned pirate, say see Kuylen. Round my vitals, but we've come from Seylla to Charybdis."

"So?" said the other naturally, and again, "So." Then the humour of it took him, and he yielded to it. "Darnell! What's to laugh at, you porpoise," spluttered mulberry-coat. "A fine tale that'll make at home! Admiral van der Kuylen first loses his feet in the night, then has his flagship fired under him by a French squadron, and ends all by being captured by a pirate. 'I'm glad you find it matter for laughter. Since for my sins I happen to be with you, I'm damned if I do."

"There's a misapprehension, if I may make so bold as to point it out," put in Blood quietly. "You are not captured, gentlemen; you are rescued. When you realize it, perhaps it will occur to you to acknowledge the hospitality I am offering you. It may be poor, but it is the best I am disposed to do."

"Darnell! Do you permit yourself to be ironical?" he disappeared him. "I am Lord Willoughby, King William's Governor-General of the West Indies, and this is Admiral van der Kuylen, commander of His Majesty's West India fleet, at present making somewhere in this damned Caribbean Sea."

"King William," quoth Blood. "And who may be King William, and of what may he be King?"

"I am alluding to His Majesty King William III—William of Orange—who, with Queen Mary, has been ruling England for two months and more."

"Try me, sir, that they've rescued themselves at all, and kicked out that scoundrel James and his gang of ruffians!"

"Bluff! Hadn't you heard? Where the devil have you been at all?"

"Briefly he gave an account. . . that with renewed assurances that should his ship they should be honourably treated, Captain Blood led the Governor-General and the Admiral to his cabin, what time the word of rescue went on."

"—home, if you will," said his lordship when comfortable. Here is a great chance for you, since you declare yourself sick of piracy. Should you choose to serve King William out here during his war, your knowledge of the West Indies should render you a very valuable servant to His Majesty's Government, which you would not find ungrateful. You should consider it. Darnell, sir, I repeat: it is a great chance you are given."

"I am negligent at your lordship's concern in my collection of my own. You'll be wishing me to land you at Port Royal."

"At Port Royal?" The little man squirmed wrathfully on his seat. Wrathfully and at length he informed Blood that they had put into Port Royal last evening to find his Deputy-Governor absent. "He had gone on some wildgoose chase to Tortuga after buccaners, taking the whole of the fleet with him."

"Is Rivaroli aware of this?" Blood cried sharply.

"It was the Dutch Admiral who answered him. 'Would he go there if he were not?' M. de Rivaroli he takes some of our men prisoner. . . that he'll make me tell. It is a great obsequity."

(To be continued.)

## Women At Wembley

Taking Greater Interest in Empire Exhibition Than Ever Before.

Women are going to have more to do with this year's Wembley exhibition than they did last year. Queen Mary will pay many more visits during the summer, if her engagements permit.

Under the presidency of the Duchess of York and the vice-presidency of Princess Mary, the women's section has organized many functions, including a "National Baby Week." The march of women into spheres hitherto exclusively held by men is indicated by the intention to hold a conference of women engineers.

The majority of women, however, will be engaged principally in the food section, giving hints on household affairs, the selection of fruits and food, and demonstrating the latest household labor-saving appliances.

## A Judicial Contrast.

The London Advertiser publishes the fact of two Ontario cases, and makes no comment, because comment is needless. A former Hamilton police officer got two years for stealing two hams, while near London a motorist who ran down and killed a small boy and then speeded away got six months.

Amazing Adventures  
Of Captain Gardiner

Englishman Acquitted of Fraud Has Had Thrilling Career

These are some of the things done, according to his own story, during an adventurous life by Charles Alfred Gardiner, 58, who was at the Old Bailey, London, found not guilty on charges of obtaining a cheque for £200,000 by false pretences from the Gardner Shipbuilding and Engineering Company, Poole, Dorset, of which he was director, of publishing false statements to induce persons to become shareholders, and of perjury.

After Captain Gardiner had given evidence, the jury stopped the case, and he was found not guilty and discharged.

Gardiner said that he had laid all the mines in Port Arthur in the Russo-Japanese war. In the Chinese revolution he was in command of the crew of one of the Chinese vessels, and in the Boer war he was in command of the Australian Bushmen. Up to 1914 he believed he held the world's record as a diver for staying under the water 3 hours and 22 minutes.

During this war he saved the Oceanic (the White Star liner converted into an armed merchant cruiser, sunk off the north coast of Scotland in 1914) and commanded one of the "Q" or mystery boats. He invented a locking system for mines used against submarines and also invented not-catchable submarine nets. He had been nine times wounded in the course of his life.

## Honors Memory Of Paul Kruger

Prince Places Wreath On Monument Of Britain's One-Time Foe

The Prince of Wales placed a wreath on the monument of Paul Kruger, the Boer leader, who was credited with being the soul of the policy that brought on the Boer War of 1899-1902. The prince, who is president of the government after the war against Britain in 1881, and in 1883 was elected president of the Transvaal Republic. He held that office as long as the republic stood.

The Prince paid his tribute to the empire's former enemy without any previous announcement or ceremony. He was accompanied by only two members of his staff.

The climax to the Prince's visit to this Transvaal came when Pretoria was superbly illuminated and a symbolic procession was held in his honor. He was entertained at a dinner given by the administrator to 250 representatives from different parts of the Transvaal.

The Prince, in the course of a speech, expressed the hope of some day being able to visit South Africa again. "Gentlemen," he declared, "it is no polite platitudes I say. I will do my best to come back."

## Religious Tolerance In Germany

President Von Hindenburg has promised to foster the spirit of religious tolerance in Germany, and consequently to respect and protect all religions. His declaration was made after he had received representatives of the inter-denominational church alliance, composed of German Evangelical, Catholic and Jewish delegations who called to congratulate him upon his assumption of the German presidency.

Wise and experienced mothers know when their children are troubled with worms and lose no time in applying Miller's Worm Powders, a most effective vermifuge. It is absolute in clearing the system of worms and restoring those healthy conditions without which there can be no comfort, peace or robust growth. It is a most trustworthy worm exterminator.

Pig iron prices are off a dollar, may be due to the supply of bribe's biscuits coming in June.

It's a wonder money doesn't blush when made to talk the way it does by some people.

But for the need of horrible examples many a man's usefulness would never be properly lit up.

## She Said He Was "Incorrigible"

By Marjorie Bradford, Social Service Council of Canada

A woman brought her son into one of our Canadian juvenile courts a short time ago because, she testified, the boy was "incorrigible." He would not stay in school and was getting his parents into continual difficulty.

When the boy gave his side of the story to the judge, he said that school always gave him a headache.

The boy, on being examined by the court doctor, was discovered to be totally blind in one eye with the sight of the other already seriously impaired. And his poor ignorant mother thought he was "incorrigible." The boy was immediately given treatment which saved and even improved the sight of his eye. If the condition had been known in time the sight of his other eye might also have been saved. Of 24,000,000 school children in the United States, 6,000,000 are retarded because of defective eyesight. It is estimated that defective eyesight among school children costs American taxpayers \$120,000,000 a year.

Similar figures for Canada are not available but they are estimated to be relatively the same. That is more than 8 per cent. of our Canadian school children are suffering under a mental handicap because of defective eyesight. I wonder how many of these children have been adjudged stupid or "incorrigible?"

## Admiral Sturdee's White Feather

Naval Hero Equipped As Slacker By Ultra-Patriotic Woman

Admiral Sir Doveton Sturdee, who died in England this spring, was the admiral who chased and defeated the squadron of Admiral Von Spee off the Falkland Islands, the second year of the war. When after that battle, he returned to England early in 1916, he followed the custom of every other officer of his time and went straight to his duties. At that time ultra-patriotic young ladies were infesting the streets of London and other English cities, thrusting white feathers into the hands of able-bodied men who seemed to be shirking their responsibilities. As Sturdee was walking down Whitehall on his way to the admiralty, he was held up by one of these young women, who gravely presented him with a white feather, which she defiantly thrust into his coat. The admiral, who had just turned into the adjoining recruiting office at Scotland Yard without delay. This equipped as a pouter, the hero of the biggest naval victory since Trafalgar marched down Whitehall to talk over the details of the affair with his colleagues of the admiralty—Argonaut.

## The Village Blacksmith

Effort Being Made In Britain To Prevent Passing Of This Picture

Strenuous efforts are being made in agricultural districts of England to save the picturesque old-fashioned village blacksmith from passing into oblivion. The smith of England today is "toll and tolling" to draw undue attention to himself, but he is "sorrowing" a great deal more than in the days when Longfellow idealized him—all because of the advent of the automobile and the motor tractor.

In their desire to "save" the village blacksmith the Hertfordshire county council members announced recently particulars of a plan designed to keep alive the decaying industry which has been so hard hit by the modern organization of the big manufacturing and agricultural firms who supply standardized parts of farm implements and machinery on lines of mass formation. The ministry of agriculture has become interested in the scheme to prevent the passing of the blacksmith and has agreed to co-operate in the movement.

## Devastating Canada

Cutting down trees and making them into logs is making out of the country paper and paper mills in the United States, where highly paid labor is employed in turning them into paper, will never enrich Canada. On the contrary, it will do more harm to our raw material and keep her people poor.—Toronto Mail and Empire.

## Natives In Congo Superstitious

The natives in the Congo region are firm believers in demons and witches. The number of people annually put to death owing to this horrible superstition is unknown, for the witch-doctors pursue their dreadful trade in secret, but it is believed to be very large, for no money is shown to anyone convicted of witchcraft.

There's no place like home, except sometimes, a mad house.

## Submerged Village Re-appears

Roofs Of Swiss Houses Visible After

After 200 years, a submerged Swiss village in the upper valley of the Saas has re-appeared, owing to the low level of the waters of Lake Autrona. The original catastrophe was caused by a landslide from the Monte Forcell, which destroyed 42 houses of the village of Antrona Piana, together with the inhabitants and their cattle. As a result of the landslide a lake was then formed, but owing to the waters now receding the ruins of the old dwellings are again visible.

## STOMACH TROUBLE

## DUE TO THIN BLOOD

It Usually Disappears When the Blood Is Made Rich and Red

Thin blood is one of the most common causes of stomach trouble. It affects the digestion very quickly. The glands that furnish the digestive fluids are diminished in their activity, the stomachic muscles are weakened and there is a loss of nerve force. In this state of affairs nothing but more quickly restores the appetite, digestion and normal nutrition than good, rich, red blood.

Dr. Williams' Pink Pills act directly on the blood, making it rich and red, and thus enriched with iron and steel, weak nerves, stimulates tired muscles and awakens to normal activity the glands that supply the digestive fluids. This is shown by an improved appetite, and soon the effect of these blood-enriching pills is evident throughout the whole system. You find that what you eat does not distress you, and that you are vigorous instead of irritable and listless. If your appetite is feeble, if you have any of the distressing pains and symptoms of indigestion, you should at once take Dr. Williams' Pink Pills and profit by the better digestion in which they will put your blood.

These pills are sold by all dealers in medicine, or you can get them by mail at \$1.00 a box from The Dr. Williams' Medicine Co., Brockton, Ont.

## War and the Auto

In 1924, 12,000 human beings were killed and 450,000 were injured by the automobile in these United States. This casualty toll of 448,000 Americans killed by the automobile in the year 1924 is numerically 50 per cent. greater than was the total casualty toll for the American armies and navies in the sixteen months while the United States was at war with Germany.—Louisville Courier-Journal.

Time has Tested It—Dr. Thomas' Electric Oil has been on the market upwards of fifty years and in that time it has proved a blessing to thousands. It is in high favor throughout Canada and the creditable has carried its fame beyond the seas. If it were double the price it would be a cheap liniment.

Some of the horses of the mounted police in London are valued at \$2,500, more than the selling price of many race horses.

We didn't know a couple were married until we saw them yawning.

## PAINS IN BACK AND SIDES

Ended by Taking Lydia E.

Pinkham's Vegetable Compound

Fussler, Sask.—"For two or three days ago so often I would have such pains in my back and sides that I could do nothing—could not sleep, could not lie down, and my head ached. I was so miserable that I wrote you. I was worse after I was married. I was on a farm with a house nearer than five miles and I was so miserable that I wrote you. I took her advice and have been thankful for it ever since. After taking the medicine for three months I can say it has helped me a lot and I am doing fine. I am glad to recommend the Pinkham's Vegetable Compound to others, and you may publish my testimonial."—Mrs. HENRIETTA FUSLER, Fussler, Saskatchewan.

Often some slight trouble will cause a general upset of the system. Such symptoms as indigestion, constipation, irregularity, backache and headache indicate some form of female weakness. Women who suffer from these symptoms should take Lydia E. Pinkham's Vegetable Compound. It is reasonable to expect that it will help you. Try it today. Your druggist sells this medicine.

### HILLCREST HAPPENINGS

The first football league game this season at Hillcrest took place on Sat-  
urday, when Corbin were the victors.  
Owing to a misunderstanding, Hill-  
crest commenced with only nine play-  
ers for the first ten minutes. At the  
outset it was easily seen, especially  
after McAndrew arrived, that there  
was only to be one team in it, the  
final score being, Hillcrest 6, Corbin  
nil. The scorers were, Sympington  
3 (he had his scoring boots on),  
Young, Clark on a penalty 1, Jack  
Dugdale 1, R. Watson 1. The return  
game will be at Corbin next Sunday.  
Several of the league teams further  
west are just now sitting up and tak-  
ing notice.

The marriage of Dicky Clark, a  
popular playing member of the foot-  
ball club, and Miss Mary Price, one  
of Hillcrest's most esteemed young  
ladies, took place at the residence of  
the bride's father, Mr. James Price,  
on Saturday afternoon, June 27th, the  
Rev. C. H. Pinder being the officiating  
clergyman and Mr. Fred White the  
best man. The bride entered the par-  
lor, a vision of beauty, to the strains  
of the wedding march, played by Ed.  
Royle. After the ceremony the in-  
vited guests sat down to a splendid  
repast. The younger tribe, of course,  
paid their usual visit and retired af-  
ter being rewarded, and after the foot-  
ball game a visit was paid by the  
footballers, to congratulate the new  
couple as one. The festivities were  
kept up to a very early hour in the  
morning. The presents were both  
costly and numerous. This wedding,  
coupled with the big victory of the  
football team, made Hillcrest a real  
live town. Several more of these af-  
fairs are already being talked about,  
but wait and see.

Despite the extremely hot weather,  
there was a very fair attendance at  
the opera house on Friday night to  
listen to a splendid musical recital  
by Madame Jones' pupils, both in-  
strumental and vocal. It was easily  
seen that the hot weather had had its  
effect on the little performers, but  
with it all it was a splendid pro-  
gramme and was enjoyed by all, with  
exception of three or four who can  
neither play, sing, whistle or dance,  
but who think these recitals provide  
a time for lounging and giggling all  
night, much to the annoyance of the  
teacher and pupils. The following  
programme was rendered:

Orchestra—Madame Jones, piano;  
Joseph Royle, violin; Ed. Royle, sax-  
ophone; Percy Salt, drums.  
Piano Solo—"Memories of Spring,"  
by Miss Nellie Hoyle.  
Piano Solo—"Rose Petals," by Miss  
Isobel Westrup.  
Violin Solo—"Lament of a Rose,"  
by Mr. Joseph Royle.  
Piano Solo—"Forest Sprites," by  
Miss Margaret Stevenson.  
Vocal Solo—"Tip Toe," by Miss  
Monica Hall.  
Piano Solo—"Danube Waves," by  
Miss Mary Davies.  
Piano Solo—"Melody of Love," by  
Miss Peggy Richards.  
Piano Solo—"Ballade," by Miss  
Mary Warriner.  
Piano Solo—"Arabia," by Miss Ho-  
len Westrup.  
Vocal Solo—"Lass With The Deli-  
cate Air," by Miss Jeanie Stobbs,  
cup winner at Blairmore 1925 festival.  
Violin Solo—"Berceuse," by Mr.  
Joe Jasbee.  
Piano Solo—"Our School Band," by  
Mr. Stanley Warriner.  
Vocal Solo—"Sleepy Hollow Time,"  
by Miss Lillian Wilcox.  
Piano Duet—"Anon," by Madame  
Jones and Miss Mary Davies.

J. E. UPTON == Your Home Tailor

Among the words that preface au-  
fering are these: "Ladies and gentle-  
men, fellow students and members of  
the faculty."

Orsular Feregotti, aged five, of  
Coleman, was drowned in the Old  
Man River at Bush Town on Thurs-  
day of last week. The little one ac-  
cidentally fell into the stream and was  
drowned before aid could be summon-  
ed.

We received a letter this week  
from "Bill" Whitelaw, formerly with  
the Blairmore senior football team.  
Bill left here a couple of years ago  
for Windsor, Ontario, and Detroit,  
Michigan. He is now at Jeddo, Lu-  
ke County, Pennsylvania, which  
district, he states, reminds him very  
much of this section of the Crows'  
Nest Pass.

We entered a barber shop in Win-  
nipeg a few days ago. Manitoba, un-  
like this glorious province of Alber-  
ta, has no law to compel barbers to  
clean their napes or faces or take an  
occasional bath, or to keep from talk-  
ing while the patient is most inter-  
ested in getting away to his own  
business. The barber asked us if the  
clippers pulled, at the same time pull-  
ing about 280 hairs for every one the  
machine cut. While doing this he in-  
formed us of his standing in the com-  
munity and the "pull" he had with  
the powers that be. Yes, he could  
pull, alright. He claimed that he  
had the reputation of conducting  
the best barber shop in the city and  
that all his seventeen razors were  
guaranteed to cut, at the same time  
slashing from our cheek just what it  
took seven years of good dieting to  
accumulate. He firmly believed in hot  
towels and lots of them. He placed  
seven on our face, drew blisters from  
various points of our physiognomy,  
including our eyeballs. He after-  
wards discovered that our eyes were  
bloodshot and claimed that the drug  
store across the street sold a remedy  
for that. We were surprised later to  
find that the barber was the sole own-  
er of this drug store. He made men-  
tion of Hon. Dunning, premier of the  
province of Saskatchewan being in  
the city to address the members of  
the Canadian Weekly Press that  
night, and that he would like to hear  
him but for the fact that "Dunning  
had the habit of saying a lot that no-  
body else was interested in." We  
right here began to feel that the bar-  
ber as a kettle should not call a pol-  
itician pot black.

Vocal Solo—"Duna," by Mr. Percy  
Salt.  
Selection by Orchestra.

The thanks of all who took part in  
the recital are due to Mr. W. Cole  
for his kindness in loaning the opera  
house free of charge.

Chairman, Ed. Royle; accompanist,  
Madame Jones.

C. J. TOMPKINS, BLAIRMORE

The fortnightly meeting of the  
Blairmore Lodge of Elks will take  
place tonight instead of Wednesday,  
which was observed as a statutory  
holiday.

The ceremony of the laying of the  
corner stone of the United Church of  
Pincher Creek was held on Wednes-  
day of last week and was witnessed  
by hundreds of adults and children.  
It was conducted by officers of the  
Masonic Grand Lodge of Alberta and  
was fittingly impressive. The officers  
of the Grand Lodge were accompan-  
ied by a large attendance of Masons  
from lodges from all parts of the  
province and principally from the  
local Lodge, Macleod, Cowley and the  
Pass Lodges.

The Lethbridge Breweries, Limited,  
have just completed an addition to  
their already first-class plant. The  
addition cost in the neighborhood of  
a quarter million dollars.

An overpayment of \$500,000 by  
the Dominion authorities to the Pro-  
vince of Alberta on cash subsidy ac-  
count during the years 1916, 1917 and  
1918, has been discovered and a claim  
has been entered for re-payment of  
this from Alberta. The over-pay-  
ment was the result of a clerical er-  
ror in Ottawa in computing the pay-  
ments to this province on a basis of  
population. The matter is now the  
subject of negotiation between the  
provincial and dominion authorities  
as to the method of re-payment.

### TEACHERS AND SCHOOL BOARD STAND PAT

The differences arising between the local public school teaching staff and the Board of School Trustees still remain unsettled. This issue has aroused a small amount of consternation among the ratepayer supporters of the school, and daily parents are looking more and more with disfavor upon the actions of the Board.

Since our last issue several meetings have been held, two of the ratepayers and others of the executive of the Teachers' Alliance and the local staff, all of whom are members. The meeting held at the school house on Saturday night was mainly for the purpose of giving the ratepayers some true enlightenment of the situation. The meeting was presided over by Mr. P. M. Christophers, M.L.A., while Mr. A. J. Kelly acted as secretary.

After a few opening remarks, Mr. Christophers asked the only member of the school board present, Mr. Frank Wheatley, to outline the position of the trustees and teachers in the present dispute. After stating that he regretted the absence of the other members of the board, as he would rather make his remarks before them, he proceeded to outline the trouble, the details of which have already been fully covered in these columns. He had particular stress upon the autocratic action of the majority of the members of the board in refusing to allow the teachers to present their side of the matter collectively, or through their legal association, the Alberta Teachers' Alliance, and further that at the regular meeting of the board on Friday night last their action in discussing dismissal of the whole staff without any feasible reason.

Mr. Wheatley stated that the school inspector had highly recommended each teacher on the staff and personally he thought the whole controversy was the result of the very reasonable request of the teachers to collective representation. Another thing Mr. Wheatley stated was the fact that if the staff of teachers left owing to the present trouble, it would be absolutely impossible for this district to fill the vacancies with competent teachers, as really good teachers would not take a position here, owing to the fact that the present staff were leaving to uphold the standard of the A.T.A.

Mr. Christophers thought that the majority of the trustees showed great indifference to the wishes of those who had elected them to the school board, by reason of their staying away from this meeting, which was called by the ratepayers in order that they might hear first hand the opinion of both sides. He also thought it very wrong to lower the salaries of the teachers, as by lowering the standard of their living at the present time it would in due course tend to lower the standard of the pupils, the rising citizens of Canada.

Mr. Christophers suggested that a committee of ratepayers be formed to meet the trustees and endeavor to have the matter straightened out to serve the best interests of the citizens as a whole.

Mr. Frank Leary, president of the local Farmers' Union, expressed himself very emphatically upon the action of the Board on Friday night in giving the teachers thirty days' notice, knowing that the ratepayers' meeting was called for the following night, and he thought that the Board by this action expressed indifference to the ratepayers and wished to ignore the people who were responsible for their being on the Board. He asked that the four absent trustees be requested to withdraw from the Board.

The following motion was moved by Mr. F. Wheatley, seconded by Mr. F. Leary:

That this meeting of taxpayers of the Blaimore School District strongly condemn the action of the majority of the Board of School Trustees in refusing to meet with the appointed representatives of the school teachers of Blaimore School District for the purpose of discussing a reduction in the schedule of salaries; and as the said board of trustees has undertaken to dismiss the whole staff of thirteen teachers for the above reason, we, the taxpayers here assembled call on the Board of Trustees to at once withdraw their motion of thirty days' notice to the teachers of this school district and meet the said representatives, and that there be no change in the salary schedule, or at once resign their office as trustees.

Mr. J. E. Gillis appeared at the meeting at this time, and not having heard the reading of the motion asked that it be read again. After his request had been granted, Mr. Gillis stated that while he was perfectly in accord with the teachers in the dispute, he objected to the motion on the grounds that it was too aggressive, and he endeavored to persuade the meeting to use methods that he thought would best serve the interests of all concerned. He suggested that another meeting be called, at

which the remaining trustees could be invited and state their reasons for the action which they had taken. Mr. Gillis' reasoning might have been acted upon, but others thought that all the trustees had the same opportunity to be present at this meeting, if they so desired, and the motion was then put to the meeting and was carried, the only opposing vote being registered by Mr. Gillis.

The following committee was appointed to present the foregoing resolution to the trustees and, report back their findings at an adjourned meeting to be called by the committee: Frank Leary, D. G. Drain, W. Lorne, Harry Burns and K. G. Craig.

Mr. Gillis moved and Mr. Wheatley seconded a motion as follows: "That this meeting of the ratepayers of Blaimore School District instruct the committee already appointed to interview the trustees and request them to retain the present staff of teachers of the Blaimore school for 1925-26, in so far as is possible." Motion carried unanimously.

The chairman then declared the meeting adjourned to the call of the committee.

The meeting resumed on Monday night, when the above committee, through their chairman, Mr. Burns, reported progress.

A sub-committee of the committee had approached the members of the Board individually and ascertained their views, which in effect had not changed, so that as a Board they were standing pat. The meeting, however, requested the committee to endeavor to meet the Board as a whole and report back. The committee will meet the Board tonight.

At the meeting on Monday night, Mr. Wheatley, Mr. P. Patterson, Mr. Leary, Mr. Gillis and Chairman Christophers were the principal speakers. Mr. Wheatley felt that the matter should not be allowed to drop at this stage, that until the local School Board acknowledged the organization of which each member of the local teaching staff had pledged themselves faithful members, this should be a

fight to a finish, and should be supported by all other labor organizations. He referred to himself as the fifth wheel of the local machine called a school board and that while holding that position he would continue to revolve until the objectionable element on the board were compelled by the ratepayers to recognize the teachers' union or resign to give place to others who might feel disposed to better serve the ratepayers of the district.

Mr. Patterson felt that the "Fifth Wheel" was deserving of full support. He spoke favorably of the work that had been done and was being accomplished by the present staff and hoped that the ratepayers would not tolerate the action of the four members of the School Board.

Mr. Conway addressed the meeting at considerable length, explaining the objects and workings of the Teachers' Alliance. He stated that in his twenty-five years of school work, the present staff was the most efficient he had ever worked with. Speaking for the local Alliance branch, he stated that the staff were prepared to stay with the fight until a fair deal was handed out to them by the Board. He "would not take \$5000 to turn down the A.T.A."

While the local Board are seeking legal advice for their actions, the local branch of the Alliance is conferring with the department of education in the hope that some action in the matter will be taken.

The issue now has developed into the question of whether or not the Board shall recognize the Teachers' Alliance. The teachers have all received notice that their contracts with the district will automatically cease on thirty days following June 26th, and the Board has already undertaken to advertise for applications to fill the positions. So far, no Alliance member has made application and it is confidently felt that no such applications will be forthcoming until the Board withdraws its notice to the teachers, which in text is nothing less than could be expected were they to have been guilty of inefficiency or misconduct, but no

such charge can be laid against the teachers. The general opinion is that at the root of the trouble is a desire to unseat a certain two or three members of the staff and to accomplish this the whole staff are caused to suffer inconvenience. At any rate, no formal demand has been made by the ratepayers either for a reduction in cost of school maintenance or reduction in school taxes. One prominent citizen has stated that his company would not mind paying an extra five thousand dollars in order to maintain efficiency in our school.

Some good catches of fish are being brought in these days. Most of those reporting the bigger catches forget while telling a "fish story" that the law allows them not more than twenty in a day.

Place potatoes in pot and cover over with water.

Being pure SMP Enamelled Ware, it comes in hot, but the splatters that water warms.

When finished drain off water through drain spout. Handle safe even on fire cooking or roasting.

**SMP ENAMELED POTATO POTS**

The potatoes are ready, whole, perfectly boiled. Serve with butter in covered dish.

## Canada's Tied-Up Resources

(Third Article)

In all articles appearing in this column, it is sought to be optimistic and constructive, rather than pessimistic and destructive, because only so can a service of real value to the community be rendered. Having in the previous two articles on "Canada's Tied-Up Resources" outlined the situation which confronts every citizen and lover of this Dominion—and an extremely critical situation it unquestionably is—some attention should be devoted to finding a solution, if, indeed, one can be found. But found it must be if Canada is not to continue in the doldrums for many years to come, cheated of the position among the nations of the world which Nature intended through the variety and abundance of its gifts this country to occupy.

The first essential to a solution is an awakening of the people of Canada to a full realization of their country's present position in respect to its resources. A second, and equally important essential, is frankness and courage on the part of public men of all parties in facing and grappling with the problem confronting Canada.

It is necessary that present shibboleths, pet policies, and partisan nostrums be completely scrapped and relegated to a forever buried past. Instead of continuing to waste time debating in just what manner the stable elf best be locked now that the horse is stolen, each interested citizen in Canada should unite with other interested citizens in an endeavor, if possible, to recover the stolen horse.

The battle for and against embargoes, or export duties, on pulp wood and pulp, on waterpowers and electric energy, on nickel and other ores, is being waged with vigor. It is largely beside the mark. At best embargoes and export duties are but half measures and likely to result in reprisals. They do not go to the heart of the whole trouble, namely, that so enormous amount of Canada's natural resources have passed from Canadian ownership and control into foreign control, and that control is being exercised to the detriment of Canada, checking development, employment, growth of population and industry, and making full prosperity impossible.

The last thing to be advocated in this column is repudiation of obligations, whether national or entered into through private contract. Consequently no such thing is expressed or implied. It must be recognized, however, that when the natural resources of any country—the property of all the people—pass into private ownership and control, there also passes to the new owners an obligation to the people and country who were the original owners. That obligation, expressed in written contract or not, is that the resources in question shall be developed for use of the people as a whole, thereby providing for their wants and advancing the welfare of the country at large. If this obligation is not carried out properly and to the satisfaction of the people, then the discharge of such obligation or a return of the property.

With such huge issues at stake as the success of our railways, the prosperity of all our industries, employment for our people, increased population and wealth necessary to carry our national burdens and pay off our war debt, with, in fact, the whole future of Canada as an economic and national unit hanging in the balance, the people of this Dominion dare not allow its national and natural resources to remain indefinitely tied up awaiting the convenience of foreign interests for their development for use.

The Dominion Parliament and the Legislatures of those Provinces which have control of their natural resources would be acting well within their undoubted rights if they gave heed to all holders of undeveloped natural resources that development must be begun and prosecuted with vigor, not a mere surface scratching but real development consistent with the nature and extent of the resources held, and that, failing such development within a stated time, title to all such resources would revert to the people as represented by the Crown.

Such action could in no sense be construed as repudiation; it would rather be a proper enforcement of the rights of Canada and the Canadian people, and a very necessary recognition of Canadian manhood and independence and emancipation from a galling servitude which, if continued, sounds the death-knell of the Dominion.

**A Titled Typist**  
The fancy recently developed by society girls for swelling the army of working women has taken an unusual turn in the case of Lady Constance Howard, elder sister of the Earl of Carlisle. After a period of training in shorthand, typewriting and other essentials, she has gone to in a career as secretary to a firm in London.

The largest smokable cigar ever made was presented to a New York politician. It was twenty-eight inches in length and weighed more than five pounds.

**Will Celebrate Kruger's Centenary**  
The 100th anniversary of Paul Kruger's birth is to be celebrated in South Africa's next October. Paul Kruger, formerly president of the Transvaal Republic, was born at Colesburg, Cape Colony, on October 10, 1825. He died in Switzerland in 1904. He was president of the Transvaal during the Boer War, and under pressure of Lord Roberts' troops, had to flee in 1900.

Female moths have the strange power of being able to "call" their mates from miles around. Scientists have never yet obtained a satisfactory explanation of this mystery.

## Children Cry for

**Fletcher's CASTORIA**

MOTHER—Fletcher's Castoria is a pleasant, harmless substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children of all ages.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher* on each package. Physicians everywhere recommend it.

## Britain Makes Another Payment

Washington Receives Over Sixty Eight Million For Semi-Annual Interest

The U. S. treasury received payments from Great Britain, Finland, Hungary, Lithuania and Poland on account of their funded indebtedness to the United States.

The British payment, a semi-annual remittance on interest, amounted to \$68,310,000. It was paid in 2 1/2 per cent treasury certificates with a \$75.91 payment in cash, necessary to adjust the interest accrued.

The total payment from Finland, \$123,650, was made in cash. Hungary funded half of its third semi-annual payment of interest, and paid the other half, \$14,200,000, in cash. Lithuania also funded part of its first annual installment on principal and interest, and turned over to the treasury \$76,225 in cash, of which \$45,226 was for interest and \$30,999 for principal. This payment also was in cash.

The first payment on account of the Polish Government amounted to \$500,000, but approximately \$125,000 was turned over to the treasury last January, and the remainder was remitted on June 15 in cash.

## 2 Years' Backache

Subdued by 'Nervine'

"Backache was the bane of my life, and for two years I was so lame as to be unfit for work," writes E. S. Brown, from Georgetown. "While in Smith Bros' Drug Store, I heard of Nervine being a wonderful pain-dispeller. I decided to try Nervine. Thanks to Nervine, my two-year's backache was rubbed away, and today I am perfectly well."

All those who suffer from weak, aching backs, stiff muscles and stiff, swollen joints are swollen, let them try Nervine—the liniment that never fails. 35c at all dealers.

## Big Coal Discovery

900,000,000 Tons of Coal in B.C.

The recently discovered coal field at Hat Creek, on the Pacific Great Eastern Railway, north of Vancouver, is declared by investigators to be one of the greatest in the world; and to contain 900,000,000 tons. It is estimated that four square miles of the district are underlain by the coal measures.

## BABY'S OWN TABLETS

ALWAYS IN THE HOME

Once a mother has used Baby's Own Tablets for her little ones she always keeps a supply on hand, for the first trial convinces her there is nothing to equal them in keeping children well. The Tablets are a mild but thorough laxative which regulates the bowels and sweetens the stomach, thus driving out constipation and indigestion, colds and simple fevers, and making teething easier. Concerning them, Mrs. Saluste Pelletier, St. Dunas, Que., writes: "I have used Baby's Own Tablets for the past ten years and am never without them in the house. They have always given the greatest satisfaction, and I can gladly recommend them to all mothers of little ones." The Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Saskatchewan Postmasters

A. C. Kolb, of Herbert, was re-elected president of the Saskatchewan Postmasters' Association at the closing session of the second annual convention at Moose Jaw, and W. J. Coleman, of Vanguard, was elected vice-president. C. D. Griffith was re-elected secretary-treasurer. H. L. Pettigrew, Beedley, and H. A. McKinley, Hutton, were appointed to the executive. The 1925 convention will be held at Saskatoon.

Unless worms be expelled from the system, no child can be healthy. Mother's Worm Expeller is an excellent medicine to destroy worms.

## New Grain Act

Would Make Provisions Uniform Throughout the Dominion

Concurrent legislation to make provisions of the new Grain Act uniform throughout Canada and place them beyond question on the ground of constitutionality, should be asked of the Provincial Governments, especially those of the western provinces. This is the tenor of a resolution adopted by the agricultural committee of the house at Ottawa.

The resolution was sponsored by J. I. Brown, Progressive, Ligar, Man. It asks the Federal Government to take up with the Provincial Governments the advisability of passing such concurrent legislation at the earliest possible date.

The Prince of Wales is now described as "John Bull's Travelling Salesman." What is more, he delivers the goods.

Minard's Liniment for Sprains

**Fresh Country Milk**

Use it wherever the range calls for milk.

Free Recipe Book—Write the Borden Co., Limited, Montreal.

## Farthest North Surveys

Department of the Interior Lays Out Plots at Six Posts in Arctic Archipelago

Six different posts in the Franklin district of Northern Canada have now been surveyed for the Royal Canadian Mounted Police or for trading companies, as one of the results of the 1922 and 1924 Arctic expeditions under the North West Territories and Yukon branch of the department of the interior.

Plans of these surveys are prepared by the topographical survey branch from the surveyor's field notes for filing with the registrar of the North West Territories. These surveys were made at Craig Harbor, Dundas Harbor, Strathcona Harbor, Ponds Bay, Cumberland Sound and Rice Strait, by F. D. Henderson, D.L.S. The last named post on Ellesmere Island, being only 244 miles from the North Pole, is the most northerly point at which any official survey has ever been made.

For Cathar—it is one of the chief recommendations of Dr. Thomas' Electric Oil that it can be used internally with as much success as it can outwardly. Sufferers from cathar will find that the Oil when used according to directions will give prompt relief. Many sufferers from this ailment have found relief in the Oil and have sent testimonials.

## Does Your Baby Cry?

If it weeps and screams during hot weather? If it cannot sleep? If its food is not satisfying him? If you cannot nurse your baby, or if it does not gain upon your breast milk give him Borden's Eagle Brand Milk—the food that has successfully reared hundreds of thousands of babies. Easy to prepare—just add boiled water as directed.

In this paper from time to time you will find an advertisement of Borden's Eagle Brand Milk, a food that has reared more healthy babies than any other prepared infant foods combined. Cut out the advertisement and mail it to The Borden Company, Limited, Montreal, and they will send you, free of charge, instructions for feeding your baby, and a Baby Welfare Book and Baby Record Book. Or just write the Company, mentioning this paper, and they will be sent.

Wretched from Asthma. Strength of body and vigor of mind are inevitably impaired by the visitations of asthma. Who can live with recurring attacks and keep body and mind at their full efficiency? Dr. J. B. Kellogg's Asthma Remedy does it. It does so by removing the cause. It does so by restoring the body to normal condition and mental happiness.

Canal Steaming Auto  
An auto standing on a street at Phoenix, Arizona, suddenly burst into flames. The owner pushed it into an irrigation canal. The flames were extinguished, another car pulled it out, and he drove off with only slight damage.

**Shave in Comfort With Cuticura Shaving Stick**

This delicately medicated antiseptic shaving stick produces a creamy lathering foam for shaving without any irritation, even twice daily. It leaves the skin smooth and fresh and makes shaving a pleasure. Cuticura Shaving Stick is on hand at every drug store.

Very often a sound investment is just a bit of speculation that turned out all right.

Minard's Liniment For Neuralgia

## SUNDAY SCHOOL LESSON

JULY 5  
THE BEGINNING OF FOREIGN MISSIONS

Golden Text: And He said unto them, Go ye into all the world, and preach the gospel to the whole creature. Mark 16:15.  
Lesson: Acts 13:25 to 13:47.  
Devotional Reading: Isaiah 55:1-7.

The Text Explained and Hummed  
The first foreign missionaries and their diocesan service, verses 12-15. In the church at Antioch there were many prophets and teachers, chief among whom was Barnabas. There were also Symeon the Black, an African, no doubt; Lucius of Cyrene, perhaps one of the original evangelists who established the church at Antioch, Acts 11:30; Manasse, the foster-brother of Herod, the tetrarch; and Saul, possibly the latest to join the leaders in Antioch. The Herod referred to is Herod Antipas, whom Jesus described as a "fox." Luke 13:32, son of Herod, the Great. According to Deissmann, "Antioch" was a court title of honor, like the phrase "the friend of the king," which was a Herod Antipas. It is interesting to recall in this connection that Joanna, the wife of Chuza, one of the servants of the same Herod, was also a follower of Christ, Luke 8:3.

"In days of the apostles, and as long as Christianity was a proscribed religion, the body of the membership of the Church consisted of the humble and middle ranks of society. The wealthy and noble will always be slow to come into the church, for this is for no other reason, that there are fewer of them" (Dr. James Orr).

## Speculate On Canada's New Governor-General

Officials in London have already formed definite views as to the qualifications necessary for the important and responsible post of governor-general of Canada. The name of Prince Henry is again being mentioned, and it is noteworthy that he alone of all the Princes was present with his august father when the latter opened the new Canadian parliament, on Monday, June 29, while his interest in all things Canadian has been patent for some time past. One thing can be definitely said with regard to the appointment, if Canada has any particular preference for any particular person they have only to explain their preference in order to have it carried into effect. It is admitted that it will be a momentous task to fill a man outside the royal family who is invested with sufficient prestige and influence to make the bonds between the motherland and Canada more secure.

## Canada's Problems

Sir Robert Falconer, Addressed Educationists at a Dinner in London

Many educationists of note attended the dinner given by the Canada Club of London in honor of Sir Robert Falconer, president of the University of Toronto.

Sir Robert submitted that Canada's three greatest problems were: First, the internal unification of the Dominion; second, her future population; third, the complaint that Canada is reserved in her attitude towards Britain and the empire.

The western and maritime provinces are just now loudly expressing discontent and it is certain that they have neither less from confederation than they legitimately expected, he stated.

## House of Commons Makes Decision

Holds Fiascos Are Not Trained Animals with Meaning of Act

After lengthy debate the British House of Commons has decided that trained fiascos are not trained animals within the meaning of the act. The commons went further and decided that fiascos could not be trained at all, and then wound up the argument by deciding that fiascos are not animals.

Exhibitors of troupes of trained fiascos protested at being subjected to the act which regulates the care and handling of horses, dogs, monkeys, in performance. The exhibitors themselves admitted that the fiascos could not be trained.

Grain Inspections At Calgary

Since the beginning of the present shipping year, approximately 25,000,000 bushels of grain have been inspected in Calgary. Of this quantity 14,000,000 bushels were wheat.

Soft corns are difficult to eradicate, but Holloway's Corn Remover will draw them out painlessly.

The most perfect form of flattery is to say to people what they think of themselves.

Very often a sound investment is just a bit of speculation that turned out all right.

Minard's Liniment For Neuralgia

**Hello Daddy don't forget my Whiffles**

Slip a package in your pocket when you go to work or school. It's a great little treat.

Give the youngsters the whole package of fun and pleasure when you give them Whiffles.

**Winkles Fruit Juice**

After every meal, a glass of Winkles Fruit Juice is a great little treat.

Winkles Fruit Juice is a great little treat.

## Warren Harding Memorial

Statue to be Unveiled at Vancouver in September

An international memorial which in many ways is unique, will be unveiled in Vancouver, on September 11 next, to perpetuate the remembrance of the late President Warren G. Harding's visit to Canadian soil in July, 1923. The unveiling will take place after the international convention of Kiwanis clubs in Vancouver, on September 11 next, to perpetuate the remembrance of the late President Warren G. Harding's visit to Canadian soil in July, 1923. The unveiling will take place after the international convention of Kiwanis clubs in Vancouver, on September 11 next, to perpetuate the remembrance of the late President Warren G. Harding's visit to Canadian soil in July, 1923.

The memorial will mark an event of which history offers no duplicate—that of a United States president making an address on Canadian soil during his term of office. President Harding visited Vancouver for a few hours on his way south after visiting Alaska in July, 1923, and was given an impressive reception. His address, in which he made an eloquent plea for continued friendship between the English-speaking peoples, and especially between Canada and the United States, was listened to by over 20,000 people and aroused considerable interest throughout the British Empire.

## Aeroplane Will Be Speedy

Four Hundred Miles Per Hour is Claim of German Inventor

An aeroplane, said to be capable of a speed of 400 miles an hour, is being built and will be entered into the races for the Pulitzer trophy next October, according to Dr. Otto A. Koller, German aeronautical expert, now in New York.

Dr. Koller, the inventor, said his airplane will be equipped with an 800 horsepower engine with a total wing area of 34 feet.

Life was safer when all the book was done by goats.

## For COLIC AND CHAMPS PAINS IN THE STOMACH There's Nothing Equals

**DEWOLTERS' WILD STRAWBERRY**

It has been in use for over 80 years; its action is pleasant, rapid, reliable and effective, and relief comes promptly.

"Don't accept a substitute." The genuine is put up only by The W. H. Milburn Co., Limited, Toronto, Ont.

LARGE Manufacturing Firm, selling concentrated flavoring extracts to country manufacturers throughout the West. Whirlwind sales and repeat orders throughout the West.

Write quick. Territory going fast. Craig Brothers, Desk C, Niagara Falls, Ontario.

**DR. LECLERC'S LIVER AND KIDNEY PILLS**

It has been in use for over 80 years; its action is pleasant, rapid, reliable and effective, and relief comes promptly.

"Don't accept a substitute." The genuine is put up only by The W. H. Milburn Co., Limited, Toronto, Ont.

## LIBERALS ARE DEFEATED IN NOVA SCOTIA

Halifax—Nova Scotia rejected the Liberal Government which has been in power for the past 43 years, and decided, with unambiguous emphasis, to afford the Conservative party, under Hon. E. N. Rhodes, an opportunity of administering her affairs. The indications were that the final count would show 10 Conservatives elected, as against a Liberal opposition of three. Premier R. H. Armstrong and all his ministers, save Hon. Wm. Chisholm, minister of finance, were defeated, the opposition-general, Hon. W. J. O'Brien, trailing the Conservative ticket in Halifax.

Unprecedented majorities were recorded in many of the constituencies, and it was estimated that the popular vote would run five to three in favor of the Conservatives for the province as a whole.

It was the most overwhelming victory achieved by a political party in the history of provincial elections since the Conservatives were routed in 1887 on the repeal issue, immediately following confederation.

## Agreement Reached On Home Bank Bill

Senate Willing to Accept Alterations Made By Commons

Ottawa—The managers appointed by the senate to confer with the commons to secure amendments in the Home Bank reimbursement bill recommended to the Upper House that the senate do not insist on the amendment to the bill which made the grant to depositors one of compassion. The only other change made in the bill, as amended by the senate, was to add the phrase "in straightened circumstances" to the clause which would require depositors to have more than \$500 in the bank at the time of the failure to prove special need.

The report was adopted by the senate, and a message sent to the commons stating the willingness of the senate to accept the bill as altered by the conference.

Religious, charitable, labor and all organizations, as well as provincial governments, municipalities, members of the Federal Parliament and senators, are exempt from the benefits of the bill.

## Believe Japan Is Preparing For War

May Enter Conflict Against China, Says London Paper

Dispatches from Bombay to the Daily Mail and the Daily Telegraph assert that the belief prevails in Bombay that Japan is preparing for war with China. The belief is based mainly on the unusual delays in the cotton market. Japanese exporters, it is asserted, are buying cotton very extensively, and the stocks, which were plentiful a month ago, consequently are dwindling.

The fact that Japan is reported, also, as making large purchases in the United States, strengthens the belief of her warlike intentions, while a further statement that Japan is steady by buying manganese is held to show that she contemplates the manufacture of considerable munitions.

## Has Had Successful Year

Reports Show Weekly Press Association Made Good Progress

Winnipeg—The accomplishments, activities and financial affairs of the Canadian Weekly Newspaper Association for the past year, were fully dealt with at the opening of the organization's fifth annual convention here, and in all reports submitted, good progress was recorded. Four hundred delegates, representing all parts of the Dominion, as well as Newfoundland, were welcomed to the city by Mayor Ralph H. Webb, and the session was presided over by Lorne A. Eddy, of The Telegraph, Walkerton, Ont., president.

Charged With Anti-Red Plot Moscow—Charged with plotting against the lives of Leon Trotsky, M. Stalin, and other Bolshevik leaders, three Germans, Dr. Karl Kindermann, Max Von Otmakh and Theodor Volzsch have been placed on trial.

Paderewski Honored London—King George conferred on Ignace Jan Paderewski, Polish pianist, the order of British Grand Cross of the British Empire, at a private audience.

W. M. D. 1923

## Wheat Prices Hinge On Canada's Surplus

Chicago—The world's price level for wheat will be determined largely by the amount of wheat Canada will have available for export this year in the opinion of S. C. Harris, a prominent member of the Chicago board of trade. "We believe," said Harris, "that the Canadian situation will have the largest single influence in the world price of wheat." Mr. Harris declared: "We feel that domestic prices will hinge in a great extent upon the spring out-turn. Accordingly, we think it logical to state that we are in a period of doubt until those crops are made." Early reports from the Canadian northwest indicate a larger crop than last year, but not so large as that of 1922. The United States crop will be below that of last year.

## Saskatchewan Livestock Pool

Investigating Committee Held Meeting In Winnipeg For Interchange Of Information

Winnipeg—The Saskatchewan livestock pool investigation committee met the stockyards interests at a meeting here, at which an interchange of information took place. W. Waldron, Regina, secretary of the committee; R. A. Wright, Strathmore, representing Saskatchewan livestock board; E. Evans, of the Moose Jaw stockyards; and Hon. George Langley, chairman of the committee, attended the meeting, which was held at the livestock exchange.

J. C. Staples, president of the livestock exchange, expressed the opinion that no great harm was done by such a pool, although it was well as the open market, although harm might result if this was carried to an extreme. He complained that a glut on the market might last two or three days and that the holder of no way to prevent this. Writing the farmers not to ship had no effect, as they shipped anyway. J. C. Doherty, of the pool, corroborated this statement later. Mr. Doherty expressed the opinion that the pool served the holder better than the commission man. He pointed out that the profits lay in sorting the loads which always sold better than the separate animal, and in choosing the right market for each type.

## Will Evacuate Ruhr August Sixteenth

Withdrawal of Franco-Belgian Troops Will Be Speeded Up

Paris—The Franco-Belgian armies and technicians will evacuate the Ruhr by August 16. The Franco-Belgian cabinet approved the plan which will complete the withdrawal by that date, just one year after the London agreement whereby the D. A. C. and evacuation were determined upon. Official withdrawal of Franco-Belgian troops has been in progress for months, and this process will be accelerated to clear the Ruhr within the specified time.

Prince Inspects School Children, Johannesburg—The greatest gathering of school children ever brought together in South Africa was reviewed by the Prince of Wales. It is estimated that the children numbered 35,000. It took the Prince a good half hour of hard walking in and out of the lines of the children to inspect them.

In spite of the great strain, the Prince is maintaining perfect health. After the inspection of the school children, he visited the Turgenev race course.

Arabs Want Supervision By League Geneva—Reports have reached Geneva that a strong movement is taking place at Tangier to place the city under supervision of the League of Nations, somewhat similarly to Danzig. The thousands of residents, chiefly Arabs, are signing a petition to that end, as they are not satisfied with the operation of the existing international regime.

Britishers In China Warned Hong Kong—Britishers employed on the Canton-Kowloon Railway, arriving here and they had been warned privately by Chinese friends to seek safety, because the Chinese are determined to kill one foreigner for every Chinese.

Had Lian Year Washington—The marriage license clerks and persons in four American counties had a very lean year in 1922, the census bureau reports. In Grant county, Kansas, Munio county, California, Dolores county, Colorado and Ogish county, Idaho, not one marriage license was issued.

## Clears Up Mystery

Discover Remains of Members of Stefansson Polar Expedition

New York—Another mystery of the Polar region was solved when H. A. Snow, the same hunter and explorer, just returned from a two-year photographic expedition of the Arctic region, announced the discovery of the remains of missing members of Vilhjalm Stefansson's North Pole expedition in 1912, on Herald island.

Snow's discovery clears up the eleven-year-old mystery of the fate of the five members of the crew, one of the two parties in which the expedition was divided, who quit the ice-locked and sinking Karfik, and started back to civilization.

The first party, led by Stefansson, completed the long trek after terrible hardships. The other party, led by the ship's doctor, was never heard from, and their expeditions found no trace of it.

Snow declared he came upon the remains while taking pictures on Herald island, which is about sixty-five miles from the spot where the Karfik was lost. He believes the entire party perished of exposure and starvation.

## Stop Traffic In Titles

Move In Britain To End Titles Honors In Return For Money

London—The long promised government bill, making it an offence to obtain titles, honors in return for money payments, was introduced in the House of Commons by the Marquis of Salisbury, Lord Privy Seal.

The question of trafficking in titles came up in the House of Lords early in May, when the Marquis of Salisbury, in answer to a question which had been raised by the Earl of Selborne, said the government proposed to introduce a bill this year with the object of making an attempt to render traffic in honors illegal, but he feared the time for the passage of the bill through the House of Commons could not be found this season.

## VETERANS READY TO FORM BRITISH LEGION IN CANADA

Ottawa—An organization of veterans of the Great War, to be known as the British Legion in Canada, is expected to grow out of the action of the Great War Veterans' Association, which, in annual convention here, unanimously adopted a resolution, placing its assets, totalling approximately \$5,000,000, and membership of about 30,000 at the disposal of Field Marshal Earl Haig, in accordance with the expressed wishes of the former commander of the British armies in France for complete unity among Canadian ex-service men.

While the identity of the G.W.V.A., which has been the senior ex-soldiers' organization in existence since the armistice, would be submerged by the proposed formation of a legion of all war veterans' organizations, the guarantee is given that in the event of Earl Haig concurring in the proposal, the ideal of the G.W.V.A. be preserved, that the organization will not be allowed to disintegrate during the transition period, which is not to exceed one year, and that the adjustment bureau of veterans be not impaired.

Aristocratic Four-footed Immigrant

This highly bred Spanish dog was raised by the Duke of Hamilton and is valued at \$700. He is the winner of many prizes and was dispatched from Glasgow by the Dominion Express Company on the Canadian Pacific liner, "Metagama" to Canada. He is going to a well-known sporting gentleman of Winnipeg and looks as though he will not leave many chances for prize in the dog shows of the west. However high his breeding he is evidently not too proud to be assistance to fellow-immigrants and is even carrying a useful bit of information in the form of a placard as to money orders.

## LABOR TROUBLES ARE PENDING NOW IN BRITAIN

London—The prolonged trade depression and consequent steadily mounting unemployment in Great Britain, which have long been subjects of grave concern, now have working day, features of the trouble, while the government ministers seem to adhere to the view that they can only undertake active interference, at the request of both the employers and workers.

The laborites mostly put the blame on the government, which they accuse of doing nothing; the employers, the high wages, and short hours, as shown by the chief causes of the trouble, while the government ministers seem to adhere to the view that they can only undertake active interference, at the request of both the employers and workers.

The situation came to a head with the closing of a joint inquiry by the operators and miners' representatives into the position of the coal industry, which has been one of the worst sufferers from the depression. The owners announced they would give formal notice of their intention to terminate the present wage agreement at the end of July, and also demand resumption of the eight-hour working day, failure of the seven hours now legal for miners.

## Want Action On Coal Rate

Ontario Aroused Over Cancellation of Reduced Rate on Special Shipments

Toronto—Cancellation by the Canadian National Railways of all the branch lines by which Ontario was to have received a 25,000-ton experimental shipment of Alberta coal has aroused not only the Ontario Government, but civic and trades organizations as well, to such an extent that demand was made upon the government that they support the appearance of a deputation before Sir Henry Thornton in Montreal.

Following the appearance before the Ontario cabinet of Mr. W. H. Walsh, of the Canadian Manufacturers' Association; H. B. Clemons, general manager of the U.P.O.; and Thomas Marshall, of the board of trade, and numerous others, Hon. George S. Henry, acting premier, dispatched the following wire to the C.N.R. president:

"Large shipment of Ontario representing the government of the province and the various interests desire interview with you regarding more cancellation of Alberta coal for distribution in this province. Please to have date arranged as soon as possible."

## Shameen In State Of Siege

Canton Foreign Settlement Is Now Prepared For Emergencies

Canton—Shameen, the artificial island which is the Canton foreign settlement, is in a state of siege. Two gunboats, one British and one French, hold commanding positions in the creek separating Shameen from the city. All approaches to the island are barred by machine guns and machine gunners, and the fortifications of the foreign forces are complete.

Motor Bus Causes Strike Shanghai—The advent of the motor bus in China has caused a strike of 6,000 rickshaw men in Nanking. They are protesting the starting of a bus service by the city and have attempted to block traffic by placing obstacles in the streets.

Premiers of German Federated States To Talk Matter Over Berlin—While numerous government departments have been studying the French reply to the German security pact proposal, active political discussion will not begin until the premiers of the Federated German States have been summoned to meet here.

Legal authorities, who have gone over the French note, find one of the greatest obstacles in the question of how to bring the French suggestions within the scope of the League of Nations covenant.

France's proposal that the act as guarantor for the powers along Germany's eastern frontier is considered by those German Liberals, who have consistently urged that Germany join the league, as nothing short of an affront to the league. Adoption of such a plan, they argue, would determine the whole league structure.

## Amundsen Still Hopes To Fly Over Pole

King's Bay, Spitzbergen—Royal Amundsen and the other members of the expedition which recently made an intellectual attempt to reach the North Pole by aeroplane from Spitzbergen, have returned to Oslo, Norway. They took with them the aeroplane which brought them back from the Arctic Circle to Spitzbergen.

Amundsen told the Associated Press that he believed land exists near the North Pole on the Canadian side. He looks upon the expedition just ended as experimental, his dream for years having been to make a flight over the pole, landing in Alaska. For this project he had not gathered much additional and valuable knowledge.

## Medical Men Meet

Fifty-sixth Annual Meeting of Canadian Medical Association At Regina

Regina—With messages of welcome from Hon. J. M. Thirick, representing Saskatchewan, and from Mayor Mason on behalf of the City of Regina, and with greetings from official representatives of the British, French, Newfoundland and American Medical Associations, the fifty-sixth annual meeting of the Canadian Medical Association was officially opened in the Normal School here.

Attendance was about three hundred delegates from every province in the Dominion, from the Far East, the United States and from the British Isles, representing every branch of the profession.

This meeting of professional men from so many parts of the world, said Mr. Thirick, would be instrumental in bringing about better understanding of the problems to be faced by all. The visitors, he said, were assured of a royal welcome on the part of the province of Saskatchewan.

A similar enthusiastic welcome was extended to the delegates by Mayor Mason, who spoke for the City of Regina.

## Amend Temperance Act

Bill to Amend Canada Temperance Act Goes to the Senate

Ottawa—A bill to amend the Canada Temperance Act has passed all stages of the House of Commons. It now goes to the senate.

The bill chiefly affects the prohibition of the sale of liquor and will give the provinces the right to prohibit importation of liquor into the province except for medicinal, sacramental and industrial purposes.

When the bill came up, considerable opposition developed from the Conservative benches. Brig. Gen. A. Clark, of Burrard, B.C., and George Black, of the Yukon, objected that the bill was aimed chiefly at private citizens and not at export houses.

A. W. Scott, Independent, Comox-Alberta, gave hearty support to the bill. He said the liquor was being brought into British Columbia, ostensibly for export, and no excise was paid. It was shipped a few miles out to sea, landed back and bootleggers sold on a large scale in the province, at prices which the provincial liquor commission could not compete with.

## Security Discussions

Premiers of German Federated States To Talk Matter Over

Berlin—While numerous government departments have been studying the French reply to the German security pact proposal, active political discussion will not begin until the premiers of the Federated German States have been summoned to meet here.

Legal authorities, who have gone over the French note, find one of the greatest obstacles in the question of how to bring the French suggestions within the scope of the League of Nations covenant.

France's proposal that the act as guarantor for the powers along Germany's eastern frontier is considered by those German Liberals, who have consistently urged that Germany join the league, as nothing short of an affront to the league. Adoption of such a plan, they argue, would determine the whole league structure.

## Soviet Irrigation Project

Leninakan, Armenia—Soviet's first national irrigation project, comprising a huge dam and 40 miles of canals, has been opened.

The irrigation system was constructed largely by refugee labor. It will convert 50,000 acres of barren land into fertile agricultural and grazing areas.

The canals involving the cutting of a tunnel through the mountain of mountains and three years' labor.

## RAILWAY MERGER IS RECOMMENDED BY COMMITTEE

Ottawa—Merging of the Canadian National and Canadian Pacific Railway systems, for purposes of administration and operation, is recommended by a special committee of the senate on railways, which made its report to the upper house.

The committee recommends:

That both the Canadian Pacific and the Canadian National Railways should be placed under the management of a board of 15 directors, five to be named by the Canadian Pacific Railway, five to be named by the Government, and three to be chosen by proven, capable business men, to complete the board; these last five directors to hold office for ten years and to be removed only for cause.

That a recapitalization be made of the Canadian National Railway, from the point of view of earning capacity.

That the Canadian Pacific Railway be guaranteed an agreed dividend on its stock.

That, in the event of the joint management producing a surplus, a dividend at the same rate as is paid to the Canadian Pacific be paid to the government on the capitalization placed on the Government Railways.

After payment of these dividends, any surplus earnings available for distribution be shared between the C.P.R. and Canadian National Railways, in proportion to the valuation of the two systems.

## Authors Welcomed By Manitoba Premier

Canadian Authors' Association Held Fourth Annual Convention In Winnipeg

Winnipeg—Welcomed by Premier Bracken of Manitoba, the fourth annual convention of the Canadian Authors' Association opened with 70 members present.

In his welcoming address, Premier Bracken declared that such conventions would help to remove sectionalism and aid the fostering of Canadian literature, which was so much needed in the United States people themselves condemned, but which Canadians did not.

## Will Agree To Amendments

Melbourne—Premier Sturtess, Bracken stated that he was pleased with the passage by the Canadian House of Commons of the Canadian-Australian trade treaty. He believes the Canadian senate will also pass it.

In ministerial circles here, it is the opinion that the Commonwealth Parliament will readily agree to the measure, as amended by Canada.

## PROPOSES TWO WESTERN MEN ON RAIL BOARD

Ottawa—Right Hon. George F. Graham, minister of railways and canals, expressed the opinion in the House of Commons that the board of railway commissioners was rather too large and unwieldy. A vote of \$23,353 for maintenance and operation of the board was under consideration.

Mr. Graham replied that in his opinion the board was, at any time, too large at present. There was no provision in the estimates for an increase in the number of commissioners, but he thought that some reduction, which would give the west more adequate representation, might be feasible. This question was a large one, and any change in the constitution of the board would require legislation.

Mr. Cooke said he would like to see the board more representative of Canada as a whole. The west now has only one representative on the board, and with the Crow's Nest Pass agreement cancelled, would be completely at the mercy of the east. He asked the minister if he thought the west was likely to receive justice at the hands of the board.

Mr. Graham replied that the question of having another western representative on the board, was well worthy of consideration. He did not admit that the west would be treated unjustly by the board, as at present constituted, but a western man might bring to the board a somewhat different point of view.

## Items of Local and General Interest

A convention of Liberals of the Macleod Federal riding is being held at Macleod today.

Miss Alice Carter, of the Union Bank staff, is enjoying a vacation at Victoria, B.C.

A girl doesn't necessarily lose her head when she lays it on a young man's shoulder.

Mr. Lindsay Carter left this week for Seattle, where he will spend part of his holidays.

Mrs. William Robinson, of Elko, is spending a few days here, the guest of Mrs. Carter, prior to her going back to her old home in England.

Mrs. Alfred Link underwent a serious operation at the Coleman hospital last week. Mrs. Link is improving as well as can be expected.

Can anyone tell us who the local Waltonian was who a few days ago enjoyed his first day's fishing, returning with a half-grown lizard and a toad?

Dominic Cyr, one of the best known farmers of the Pincher Creek district, suffered a severe loss when his beautiful residence and several near by buildings were destroyed by fire.

Sir Richard Turner, V.C., of Quebec, has been elected Dominion president of the Great War Veterans' Association of Canada. He succeeds Major W. D. Sharpe, M.D., of Brampton, Ontario.

The new issue of the illustrated Alberta handbook, issued by the publicity department is now being distributed abroad and a supply has been forwarded to Wembley Exposition for distribution there.

"It is getting to be quite a respectable thing to be a bootlegger in British Columbia," says a member of the B. C. Legislature. "I know men in good society who are not ashamed to make money like that. They might be deacons of the church," he added.

The police searched a premises on Sixth Avenue on Saturday night and located a considerable quantity of beer and whisky. The proprietor of the place will appear before Magistrate Gresham on Saturday to answer the charge of "having in possession for sale."

A member of the school board has stated that a local merchant, when asked what he thought of the idea of cutting teachers' salaries, stated that "all he had to say was that the cut proposed was not enough!" Rate-payers and that merchant's customers are anxious to know who the merchant is.

Joe Chaput, a local taxi driver, had the misfortune to lose part of the little finger of his right hand on Tuesday night. He was in the act of jacking up his car when the finger slipped, pinching the top off the finger. On seeking surgical attention, it was found necessary to remove the membrane to the first joint.

Mr. and Mrs. Dunlop, of Frank, desire to thank the following for donations of plants to be placed around the memorial erected in honor of their boys who fell in the great war: Mrs. Sherring, Mrs. Kroll, Mrs. Pessi, Mrs. Crayford, Mrs. Blais, Mrs. Leasack, Mrs. Dypolt, Mrs. Swoboda, Frank; Mr. W. Scott, Mr. H. Pinkney and Mr. A. McLeod, junior, Blaimore.

Dominion Day was observed fittingly at Coleman, where a programme of field sports and an indoor stampede were carried out. The \$50 prize for baseball came to Blaimore, while a similar prize for football remained in Coleman. In the evening a boxing bout was staged at the opera house, in which Roddy McDonald, of Nova Scotia, scored a knockout in the fifth round of a ten-round go. Hundreds of people from neighboring towns attended the day's events.

The regular ladies' monthly golf competition will be held on Saturday, July 4th.

Mayor McLeod returned the early part of the week from a business trip to points in the Okanagan.

The Right Rev. Bishop Kidd, of Calgary, visited Bellevue on Sunday last and held confirmation service there.

E. Hinds motored to Calgary this week, taking along Miss Lucy Hinds, of the General Hospital nursing staff, who spent her vacation here.

Women now outnumber men on the continent of Europe by twenty-five millions, according to the latest statistics.

D. M. J. and Mrs. Conway left by the local today, enroute to Edmonton, where for a few weeks Mr. Conway will be engaged marking exam papers.

C. F. Steele, representing the Lethbridge Herald, was in town during the week, drumming up advertising and news data for a special tourist page for the Herald.

Mrs. Dunlop asks us to state that she is not treasurer of the Frank Red Cross and has no intention of holding any such office. Mr. and Mrs. A. Sherrington are acting as secretary and treasurer, respectively.

Applications for the position of barber shop inspectors should now be in order in Alberta. The job should be good for considerably more than is earned by any barber in the province through actual labor.

A conference of representatives of the Canadian Federation of Mine Workers was held here on Monday. Plans looking to the amalgamation of the new local unions into an all-Canadian organization were discussed.

The new warehouse opened up last week at Coleman by the Scott Fruit Company, Wholesale, of Lethbridge, was broken into on Tuesday night and a quantity of goods, mostly cigarettes and cigarette papers, stolen. The young robbers will likely land in the police hands shortly.

This morning, when some members of the teaching staff approached the school building to gather up their belongings, they were informed that on the advice of a member or members of the board they would not be permitted to move anything. This is treatment that might well be meted out to a criminal.

James Haxton died at Coleman on Monday morning, after several months' suffering following an accident in a mine. He was a member of the Masonic Order and leaves a wife and one son. Funeral took place this afternoon and the remains were laid to rest in the Coleman Protestant cemetery.

Winnipeg was signally honored last week by having as guests the members of the Canadian Weekly Newspaper Association, about four hundred in number. All provinces, as well as Newfoundland, were well represented. The sessions were held at the Royal Alexandra hotel, the leader of the C.P.R. hostilities, and lasted for three full days.

The dance held Friday night last, featuring the "Bluebird Dancers" was poorly attended. Alex. Powell and Myrtle Duffy in their Argentine waltz, sensational one steps and fox trots were well worth seeing. The Night Hawks orchestra supplied splendid music and those attending were well satisfied. Mr. George Slot, of Coleman, and Mrs. W. Knight, of Blaimore, won the competition for fox trotting after a keen contest in this mysterious whirl. The "Bluebird Dancers" will perform at Calgary during Stampede week.

A local party with a distinct love for music on Monday took a ride to Frank in an old 1907 Ford.

Jack Dempsey was obliged to come through with \$6000 income tax, following a two-day boxing exhibition which netted him \$28,000.

Masters Hamilton, (two) sons of Mr. and Mrs. Allan Hamilton, left this morning for Gardenton, to spend part of their summer vacation with Sgt. and Mrs. Howard.

An Oldsmobile roadster, belonging to P. Burns & Co., was destroyed by fire in the Todd Creek district on Saturday last. We understand that the loss was practically covered by insurance.

The little town of Santa Barbara, California, suffered severely from earthquake during the past week. Considerable of the tremor could be felt in Alberta, but practically no damage has been reported.

The local public school closed for the summer holidays on Tuesday and most of the teaching staff have left for their respective vacation points. Two or three of the teachers will attend summer school at Alberta University.
